Dr. Elsberry asked Cindy Ambrose to introduce a team of teachers to explain the proposed summer curriculum work. Mrs. Ambrose noted that curriculum work has always been done during summer months however, House Bill 3919 (Act 155) revamps assessments. Mrs. Ambrose explained that testing now requires high-level thinking. To demonstrate this, a critical thinking wheel was distributed to each Board member. The team gave an overview of the creation of curriculum based assessments established by the State Board of Education. The teachers spoke of the time-saving value as well as the value of uniform resources across the district for the summer curriculum work.

Mrs. Ambrose noted for the Board that the science standards are going to be revised for next year with evolution removed.

Mrs. Ambrose explained to the Board the impact of not funding this line item. Mr. Poston asked for assurance that should assessments change again next year, the work completed this year will still be utilized. Mrs. Ambrose explained the value of preparing teachers for what assessments students will face.

Mrs. McIlrath inquired about how long the District has been doing summer curriculum work. Mrs. Ambrose explained that although the District has been doing this for the past 8 – 9 years, there has never been a year with so many changes handed down from the State Board of Education.

Mr. James explained his change in opinion on this issue by telling a story of a recent conversation with a teacher who struggled with new assessments. Mrs. Ambrose explained that this is assessment work embedded in curriculum. Mr. James expressed hope that teachers will not feel the stress they may have felt this year with impending Common Core State Standards.

Mr. Eisner noted the value of this tool for teachers. Mr. Poston recognized the importance of continually reviewing curriculum.

Mr. DeFeo asked the number of teachers that would participate over the summer and the process by which those teachers were chosen. Mrs. Ambrose explained that last year about 350 teachers chosen by principals were a part of the process.

Dr. Elsberry assured the Board that work done in the past still provides value to the teachers as the standards become more rigorous each year.

There was brief discussion on funding sources for professional development and the impact on special funds. Mr. Gardner explained that the funds requested for this line item are a part of the \$7.2 million detailed on page 55 of the budget.

Moved by Mr. Eisner, seconded by Mr. James, the Board approved \$351,680 for curriculum and assessment development. Mr. DeFeo voted against the motion.
