

Consider Approval of Locally Developed Course Numbers for the 2024-25 Academic Year

Policy Reference: *South Carolina State Department of Education Activity Coding System for the Student Information System 2020-21, Page 88*

Background Information:

The South Carolina State Department of Education Activity Coding System includes the standardized codes for courses, instructional activities, and non-instructional activities used in the student information systems in South Carolina public schools. Course codes are assigned to courses by the Office of Federal and State Accountability. In addition, school districts have the option of developing locally board-approved course codes for courses for elective credit only.

“Each district must maintain a listing of locally approved courses by subject areas and subgroups. These activities must be uniformly numbered within each school district. All locally board-approved courses must be approved by the district’s board of trustees each year and evidenced in the board’s minutes. The Office of Federal and State Accountability may ask for Board minutes during a desk audit.”
