

Consideration for New Loop Road Expansion Projects at Four Locations

Policy Reference: OE-13: The superintendent shall assure that physical facilities support the accomplishment of the board's **Results** policies, are safe and properly maintained.

Background Information: As the district has continued to see a steady growth in student population, the impact to students arriving by vehicles has also increased significantly. This increase in traffic has resulted in many schools experiencing congestion and queuing backup into public right-of-ways which can lead to safety hazards and public complaints. Several parent loop road expansion projects have successfully been implemented across the district in recent years to address these issues. There are four additional locations where expansion of the parent loop roads is recommended.

Purpose: To authorize Facilities staff to design and construct parent loop traffic solutions at four locations: Aynor Middle School, Lakewood Elementary School, Riverside Elementary School, and Waterway Elementary School.

For additional information: Contact Mark Wolfe 843-488-6967 or Daryl Brown 843-488-6774.

Recommended Action: Approve funding for Facilities staff to design and construct parent loop traffic solutions at four locations: Aynor Middle School, Lakewood Elementary School, Riverside Elementary School, and Waterway Elementary School.

Estimated Cost: \$5,533,000.00

Recurring Non-recurring
Funding Sources: Building Modification funds (5657)

Prioritization and Funding Recommendation Details:

1. *Waterway Elementary* \$1.400M
2. *Aynor Middle:* \$1.676M
3. *Lakewood Elementary:* \$1.254M
4. *Riverside Elementary:* \$1.203M

Estimate of Probable Cost: \$5.533M
