

Instructional Materials Adoption Recommendations 2016 – 2017

Policy Reference: OE-8: The superintendent shall assure that the board is fully and adequately informed about matters relating to board work and significant organizational concern.

Background Information: The Instructional Materials Division of the State Department of Education anticipates allocations to fully fund the subject areas up for adoption in the 2016-2017 school year. Selected materials will be placed in schools beginning August 2016. Recommendations are currently being made to support identified areas of **Science K-5, Social Studies K-5, U.S. Government 9-12, Biology 9-12 and International Business Application 9-12 (CATE).**

All materials for this adoption went through the state public review process prior to consideration. The district adoption committee was comprised of teachers, curriculum coaches, school and district administrators, and a parent. School level representatives were instructed to vote based on input from all appropriate teachers in their schools.

Based on the recommendation of the district adoption committees, the following materials have been selected for use as described below:

BIOLOGY:

Biology I, CP:	<u>Glencoe Biology</u> by McGraw-Hill School Education LLC
Biology I, Honors:	<u>HMD Biology</u> by Houghton Mifflin Harcourt
