Interpretation: I interpret this policy to mean that Horry County Schools will implement a course of study that is aligned with the *South Carolina Standard for World Language Proficiency*. The content of the *South Carolina Standard for World Language Proficiency* is organized according to national standards, blending the two focus goal areas of communication and cultures into one standard. The remaining goals of connections, comparisons, and communities are embedded within communication and cultures.

I further interpret this to mean that the staff will regularly monitor and evaluate the instructional programs at each school offering foreign languages as part of the ongoing efforts to improve student learning and language fluency. Staff will also provide ongoing support by providing

professional development opportunities, and facilitating development of curriculum and assessments.

Indicators of Evidence and Compliance:

We are in full compliance of this policy. Evidence is listed below:

- Horry County Schools curricula and course offerings provide learners with a sequential comprehensive education in standards for foreign language through the study of the five C's:
 - Communication: Communicate in languages other than English
 - Cultures: Gain knowledge and understanding of other cultures
 - Connections: Connect with other disciplines and acquire information
 - Comparisons: Develop insight into the nature of language and culture
 - Communities: Participate in multilingual communities at home and around the world

The content of the *SC Academic Standards for World Language Proficiency* is organized according to the national standards.

- Instructional materials adoption processes comply with state requirements. New adoption has been moved to next year.
- Technology plays a major role in performance assessment, accessing authentic materials and providing authentic materials for student use.
