

# My College Options

Setting the pace for academic achievement and serving as an education advocate for children is a primary focus for all of us involved in the education and admissions processes. A key to achieving this vision is helping students plan for their post-secondary careers. In Horry County Schools:

- ▶ 26.2% of our students plan to pursue a Science, Technology, Engineering or Math (STEM) career versus 25.5% nationally.

- ▶ 33.3% will be the first in their families to attend college.

- ▶ **92.1% plan to attend a four-year institution.**
