Report from External Auditor

Policy Reference: OE-6 Financial Administration

<u>Background Information:</u> The financial records of the school district are required to be audited on an annual basis by an external CPA firm. The audit for the fiscal year ended June 30, 2017 was performed by Elliott Davis Decosimo, LLC, Charleston, South Carolina. A copy of the 2017-18 Comprehensive Annual Financial Report was included in the Board Update on January 12, 2018.

The report can also be viewed here:

<u>Purpose:</u> The year-end audit is intended to provide the Board of Education with a comprehensive overview of the district's financial position as of the end of the fiscal year. Mr. Timothy A. Grow, shareholder of the CPA firm, Elliott Davis Decosimo, LLC will present the report and respond to questions.

<u>For additional information</u>: Please contact John Gardner at 488-6896 or by e-mail at <u>igardner@horrycountyschools.net</u>

THE CITIZENS OF HORRY COUNTY, HORRY COUNTY BOARD OF EDUCATION, AND DR. RICK MAXEY SUPERINTENDENT OF SCHOOLS

The Comprehensive Annual Financial Report (CAFR) of the Horry County Schools (the District) for the fiscal year ended June 30, 2017, is hereby submitted. Responsibility for both the accuracy of the information and the completeness and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed information is accurate in all material respects and reported in a manner designed to present fairly the financial position and results of operations of the various funds of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The District's Board of Education is financially accountable for the funds included in this report. The District is not included in any other "reporting entity" as defined by the Government Accounting Standards Board Statement 61, "The Financial Reporting Entity." The Board of Education has decision-making authority including the power to hire management, the ability to significantly influence operations and the accountability for fiscal matters. The District accounts for its financial activity using fund accounting procedures. Note 1 of the financial statements fully describes the various funds used by the District.

The accounting principles generally accepted in the United States require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The Horry County Schools' MD&A can be found immediately following the report of the independent auditors.

THE REPORTING ENTITY

Horry County, South Carolina, is located on the east coast of the United States, bounded on the north by the North Carolina state line and the east by the Atlantic Ocean. It encompasses 1,134 square miles of area, creating the largest county in landmass east of the Mississippi River and is slightly larger geographically than the state of Rhode Island. The District serves a county of approximately 322,342 people.

The District is governed by a twelve-member Board of Education (the Board); eleven members elected from single-member districts for four-year staggered terms and a chairperson elected at large for a four-year term. The Board has legal authority for the operation of all public schools in Horry County. It has complete and final control over County school matters within the framework set by the State Legislature and the South Carolina Department of Education. The Board acts to interpret the educational needs of the County and then meets those needs with policies and facilities that stimulate the student and the learning process.

The Board is also responsible for hiring the Superintendent, who is a professional educator employed to advise the Board on all matters concerning management of the schools, as well as administering laws, regulations and policies adopted by the Board. As the leader for teaching and learning for the District, the Superintendent is responsible for guiding the development of the curriculum and educational programs that address the needs of students as well as providing leadership and advocacy for education.

The District has nine attendance areas: Myrtle Beach, Conway, Socastee, North Myrtle Beach, Loris, Aynor, Green Sea-Floyds, St. James, and Carolina Forest. Each area consists of a high school and the middle and elementary schools that feed into it. The District operates a total of 58 school facilities. All schools in the District are fully accredited by the South Carolina Department of Education and the Southern Association of Colleges and Schools. The District is the third largest of the State's eighty-five school districts and ranks second in the State in student enrollment growth during the past ten years. According to the 135-day average daily membership, the District has a student population of 42,912.

The District provides a full range of programs and services for its students. These include elementary and secondary course offerings at the general, vocational, college preparatory, and international baccalaureate levels. A broad range of co-curricular and extra-curricular activities to complement the students' curricular programs is also offered.

In addition, Waccamaw Park Public Charter Schools (also known as Bridgewater Academy), Palmetto Academy of Learning and Success (also known as PALS), the Academy of Hope, Inc., and Palmetto Academy for Learning Motor Sports (also known as PALM) are charter schools under legislation enacted on June 18, 1996. A charter school is considered a public school and is part of Horry County Schools for the purposes of state law and state constitution. Because these charter schools are fiscally dependent on the District and exclusion of their financial information would cause the District's financial statements to be incomplete, the financial statements of the charter schools are included in those of the District as discretely presented component units.

FINANCIAL INFORMATION

Internal Controls

The administration of the District is responsible for establishing and maintaining an internal control structure designed to protect the assets of the District from loss, theft, or misuse and to compile sufficient reliable information for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived and (2) the evaluation of costs and benefits requires estimates and judgments by management. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

Independent Audit

State statutes require an annual audit by an independent Certified Public Accountant. The accounting firm of Elliott Davis, LLC, Certified Public Accountants, was selected to perform this audit. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the year ended June 30, 2017, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the District's financial statements for the year ended June 30, 2017, are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the Financial Section of this report.

Single Audit

As a recipient of federal revenues, the District is required to undergo an annual single audit in conformity with the provisions of all applicable laws and/or regulations. Information related to this single audit, including the schedule of expenditures of federal awards, findings and recommendations, and auditors' reports on the internal control and compliance with applicable laws and regulations, is included in the single audit section of this report.

The District is also responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is subject to periodic evaluation by the administration of the District. As a part of the single audit process, tests are made to determine the adequacy of the internal control structure, including that portion related to federal financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

Budgetary Control

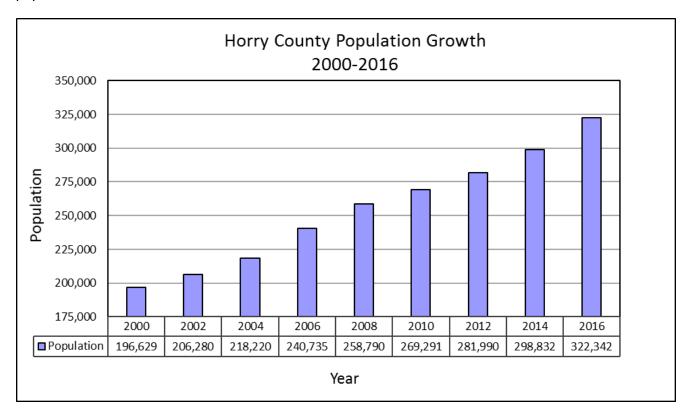

The District approves an annual budget which acts as the financial operating plan for the entire fiscal year and provides budgetary controls for all components of the District. The objective of these budgetary controls is to ensure compliance with the annual appropriated budget approved by the Board of Education. Activities of the General Fund, Special Revenue Funds, Debt Service Fund and Capital Projects Fund are included in the annual appropriated budget. The legal level of budgetary control is the fund level. To ensure compliance, the budgetary controls are established by function and activity within each individual fund. All annual appropriations lapse at year-end with the exception of those indicated as an assignment of fund balance. The District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Encumbered amounts lapse at year-end.

Financial Policies

There have not been any significant changes in financial policies that have a material impact on the financial statements.

ECONOMIC CONDITION AND OUTLOOK

Development of the County's predominantly tourist-based economy has been extremely rapid since the early 1980's. Most of the County's 40 miles of beaches have been developed residentially or commercially while at least 50 percent of the remainder of the County is yet to be developed. Thirty-two percent of the state's hotel and motel rooms are in Horry County, while 40 percent of the state's second homes are also located here. According to the U.S. Census Bureau, Horry County grew to a permanent population of over 269,000 in the year 2010 and is expected to exceed 342,000 by the year 2025. Since 2000, this represents a growth of 125,713 residents, or 63.9 percent. For years 2012-2016, population data is estimated.

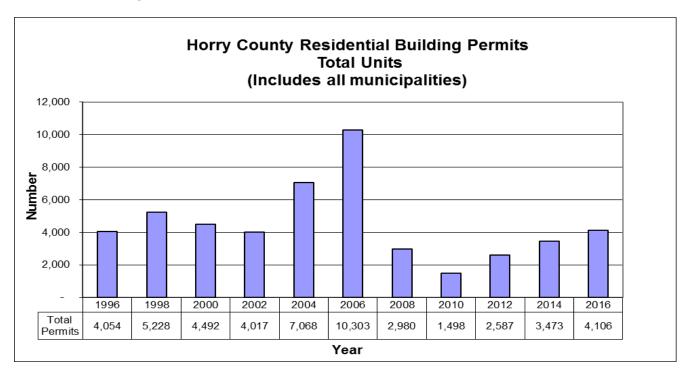

Source: US Census Bureau

According to the U. S. Census Bureau, Horry County's population in 2010 was approximately 79.9 percent White, 13.4 percent African-American, and 6.7 percent Other Race. Of this total, approximately 6.2 percent were of Hispanic origin. For 2016, the HCS student population consisted of 63.4 percent White, 20.0 percent African-American, and 16.6 percent Other Race. In 2016, 9.6 percent of students were of Hispanic origin. According to the U.S. Census Bureau 2016 American Community Survey, the median household income estimate in Horry County was \$45,621, compared to the US median estimate of \$57,617. The estimate of per capita income in 2016 for Horry County was \$25,807, compared to the US per capita income estimate of \$31,128.

Residential Construction activities in Horry County have started to see improvement over the past few years. The County experienced a tremendous decrease in new construction starting in 2006. This bust came on the heels of the biggest building boom in the County's history between 2002 and 2006. The boom in construction was a result of a combination of factors including a strong economy, a maturing market place and a fast-growing tourism base. However, between 2006 and 2010, Horry County experienced substantial drops in construction related employment and expenditures.

Between 2002 and 2006, there were over 22,000 Single Family Residential Permits issued and over 14,000 Multi Family Units permitted. Horry County residential building permits in 2005 totaled 11,673 at the peak of the building boom. In 2006, residential permits totaled 10,303. This was a decrease over 2005 of 10 percent as the downward slide began. From 2007 through 2010, the number of annual building permits issued continued to decline with the 2010 total of 1,498 permits being the lowest year on record since 1991. In 2011, the permitting began to rebound with 2,304 units but was still well below previous years. In 2012, permits totaled 2,587, and in 2014, Horry County issued 3,473 permits. In 2015, Horry County issued 3,637 permits – a 4.7 percent increase from 2014. The number of residential permits authorized in 2016 increased by 12.9 percent to 4,106. Sales of existing properties are also rebounding and should continue to do so.

Source: U.S. Department of Housing and Urban Development

Based on the latest research compiled by the SC Department of Parks, Recreation & Tourism, total domestic visitor spending has an enormous impact on South Carolina and Horry County. In South Carolina, a total of \$20.2 billion was spent on travel or on behalf of tourism in 2015, up 6.1 percent over 2014. In 2015, tourism supported approximately 5.2 billion in payroll income. Domestic traveler expenditures supported 127,800 jobs within South Carolina. These jobs composed 6.4 percent of the total state non-agricultural employment. Tourism also had a total fiscal impact in state and local revenues of \$1.5 billion, up 7.1 percent over 2014. In 2015, tourism supported one in ten South Carolina jobs. (Source: U.S. Travel Association, January, 2017)

Visitor estimates to Horry County totaled some 18.6 million in 2016. The direct and indirect economic impact from tourism in Horry County led the State in all travel expenditures, payroll incomes and jobs directly generated by domestic travel spending in 2015. Domestic travel expenditures in Horry County were \$3.9 billion in 2015, more than 31 percent of the total spent on domestic travel in the State. Domestic travel expenditures generated over \$733 million in payroll and 40,200 jobs for County residents. In 2015, domestic travel in Horry County generated \$244.4 million in state sales tax receipts and over \$147 million in local tax receipts. Horry County ranks first among all SC counties in each of these categories. (Source: SC Department of Parks, Recreation and Tourism; Myrtle Beach Area Chamber of Commerce; Coastal Carolina University; U. S. Travel Association, 2015; Tourism Works for Us at http://www.tourismworksforus.com)

There are many amusement attractions spanning the Grand Strand along with over 100 golf courses located in the area. This constitutes one of the largest concentrations of like facilities in the nation. Golfers played more than 3.2 million rounds of golf in Horry County during 2013. The state has 368 golf courses, giving South Carolina the highest number of holes per capita in the United States. In 2011, golf generated more than \$2.7 billion annually for the state's economy and directly or indirectly created 34,785 jobs, according to a SC Department of Parks, Recreation & Tourism study from April 2012. This industry has been instrumental in the expansion of the Horry County tourist season, including early spring and late fall, as well as strengthening our regular May through October seasons. In addition to golf, the area boasts eight live entertainment theaters with over 11,000 seats; 1,700 full-service restaurants; 300 outlet shopping stores; and over 400 hotels with approximately 98,600 accommodation units.

Located just one mile inland from the Atlantic Ocean, The Myrtle Beach International Airport (MYR) provides easy service to more than 350 destinations worldwide. MYR recently completed a \$118 million terminal project that expanded the number of gates, baggage claim and security screening areas, while adding a separate car rental facility and additional parking. MYR is currently served by seven airlines with non-stop service to more than 30 markets. During 2016, 972,041 passengers arrived at the Myrtle Beach International Airport. MYR reached a major milestone in November 2017 when the airport welcomed over one million passengers within a year. In addition to MYR, several regional airports serve the Myrtle Beach area including: Conway-Horry County Airport (HWY); Grand Strand Airport-Ramp 66 (CRE); Loris-Twin Cities Airport (5J9). (Source: Myrtle Beach International Airport at https://www.flymyrtlebeach.com)

In 2012, Horry County ranked 13th in the State in agricultural production (crops and livestock) with more than \$101 million in cash receipts, according to the USDA National Agriculture Statistics Service. In 2012, there were 177,569 total acres of farmland in Horry County. In 2002, there was a total of 188,311 acres, indicating a five percent loss of farmland in a ten-year period. This continues to illustrate Horry County's decline as a major agricultural producer in South Carolina. In 1996, the County ranked 2nd in the State, and in 2003, it ranked 7th. (Source: USDA, National Agriculture Statistics Service.)

Of recent interest in Horry County has been the development of Sports Tourism. The area is coming to be recognized across the Southeast as a primary destination for sports tournaments. Grand Park Athletic Complex, which is located in the Market Common district of Myrtle Beach and was completed in 2013, boasts seven large multipurpose fields and two youth fields. These fields have lights and synthetic turf, and are designed to accommodate a variety of sports, including baseball, softball, lacrosse, soccer and football. For 2013, Myrtle Beach hosted 2,892 teams on its athletic fields. The Myrtle Beach Sports Center, a 100,000 square foot state-of-the-art indoor sports facility, is the latest addition to Myrtle Beach's impressive sports venue roster. Opened in March 2015, the facility features 8 basketball courts and 16 volleyball courts spread over 72,000 square feet of column-free hardwood space. The venue has been designed to host court sports, wrestling, gymnastics, table tennis, pickle ball, and other sports events as well as trade shows.

In 2014, North Myrtle Beach opened its own state-of-the-art sports tourism and recreational facility. The North Myrtle Beach Park and Sports Complex contains six baseball/softball fields and eight soccer/lacrosse fields, an ADA accessible playground, two dog parks and the only outdoor amphitheater along the Grand Strand. Over 70 sports tourism events were held at the Complex in 2016.

NEW DEVELOPMENTS & ATTRACTIONS

Horry County's biggest development, Carolina Forest, opened by International Paper, was begun in the mid 1990's. Carolina Forest is approximately 17 square miles or 10,850 acres. To compare, the City of Myrtle Beach is also approximately 17 square miles or 10,700 acres. According to the U.S. Census Bureau, the Carolina Forest area grew by 506 percent in population between 2000 and 2010, growing to over 20,000 residents. The area continues to grow as evidenced by information received from Horry County, indicating that almost 1600 single family units located in or near Carolina Forest have been approved for addressing since June 2016.

The long awaited Urban Village is now a reality at the former Myrtle Beach Air Force Base. **The Market Common, Myrtle Beach** offers an outstanding opportunity to be part of a master planned redevelopment by the Myrtle Beach Air Force Base Redevelopment Authority. On the 3,790-acre parcel of land, over \$30 million of new infrastructure has been installed, including 29 acres of lakes, new community parks and four miles of new roads, all contiguous to the Myrtle Beach International Airport. In the heart of the 100-acre redevelopment is a complimentary mix of retail, restaurant, residential, hotel, and parking—bringing together the best ideas in land use and urban planning to create a beautifully designed, pedestrian-friendly lifestyle center. **The Market Common** has become an important social and economic focal point for Myrtle Beach. In addition to the core redevelopment, developers have begun construction on several new single family neighborhoods surrounding the core. One of the recent neighborhood additions to Market Common is the **Vinings**, an upscale apartment complex with 288 units, which was completed in 2016.

SkyWheel Myrtle Beach - May of 2011 marked the grand opening of Myrtle Beach's new attraction, **SkyWheel Myrtle Beach**. The giant attraction stands at 196 feet (60 meters) and 18 stories high and spans two ocean front lots along Ocean Boulevard, on the north side of Plyler Park. It has been specifically designed to include 42 glass enclosed and temperature-controlled gondolas, each of which can hold six people. The **SkyWheel Myrtle Beach** is an exciting new addition to the Grand Strand area, along with the newly renovated Myrtle Beach Boardwalk and Promenade. The **SkyWheel Myrtle Beach** also incorporates a complete light show in the evening. The only one of its kind in the United States, this family-friendly attraction is sure to become an iconic staple for Myrtle Beach.

Myrtle Beach International Airport Technology, Commerce and Aeronautics Park (ITAP) - ITAP is a 460 acre Class "A" Aviation Technology, Commerce and Aeronautics Park owned by Horry County. The park is located on Myrtle Beach International Airport property and has a public entrance from the Market Common district. Horry County has plans to capitalize on the growing aviation and innovation industries and position the County as the premier live/work community in the Southeast.

Construction began on a **Hilton Myrtle Beach Resort** with 385 guest rooms on October 15, 2013, with a 20-month timetable, setting a completion date around July 2015.

In October of 2014, a ribbon cutting ceremony was held to welcome **STARTEK Inc**. to Horry County. STARTEK, a customer support center located in the Carolina Forest area, plans to bring 615 jobs with an annual economic impact of more than \$45 million to the area.

TRANSPORTATION

In order to improve Horry County's transportation system, a major federal interstate is under consideration. I-73/I-74 would begin in Michigan and continue through Ohio, West Virginia, Virginia, North Carolina and end in Charleston, South Carolina, after passing through the Grand Strand. The Federal Government has allocated \$400,000 for South Carolina to do a feasibility study regarding the project.

In addition, former Governor Beasley approved the most aggressive road construction program in the history of Horry County, RIDE – Road Improvement and Development Effort in September 1996. Horry County's RIDE Project represents a comprehensive solution for transportation problems which pairs significant funding from the local level with funding provided by the State of South Carolina. Horry County enacted an ordinance in the fall of 1996 that implemented a 1.5 percent hospitality fee (accommodations, restaurants, amusements, golf and theaters) effective January 1, 1997. purpose of this fee is to provide the financial ability for Horry County to partner with the State of South Carolina to meet the infrastructure needs of the County. The participating parties of the RIDE project are Horry County, the South Carolina Transportation Infrastructure Bank and the South Carolina Department of Transportation. The total cost of the RIDE I program was \$774 million (\$698 million in 1997 dollars, escalated at 4.5 percent per year over the seven year construction period). The total debt service over the life of the proposed bonds for the RIDE project is \$1.2 billion. Horry County's contribution to retire the debt is \$368 million; the South Carolina Transportation Infrastructure Bank is expected to fund the balance of the debt service, \$859 million. The RIDE Project included a series of interconnected highway construction and road enhancements that improved the overall transportation network in Horry County.

The RIDE II program, submitted to Horry County Council in May 2004, outlined an additional list of priorities for roadway improvements. To fund these projects, a local option sales tax was passed by Horry County voters in November of 2006.

The RIDE III initiative was recently approved by voters in the November 2016 general election. This initiative includes more than thirteen projects which will cost close to \$590 million dollars. RIDE III calls for a one-penny sales tax to be collected for no more than eight years, beginning in May of 2017. The sales tax would remain in effect for eight years through April 30, 2025.

AREA ACCOLADES

TRIPADVISOR

"2014 TripAdvisor Travelers' Choice Awards & Most Popular Destination"

TripAdvisor, the world's largest travel site, released the results of its annual summer travel survey of more than 2,500 respondents, which showed Myrtle Beach as the most popular travel destination of 2014 – the second year in a row. TripAdvisor also named Myrtle Beach as #22 of its Top 25 Cities in the United States. The popular travel website described Myrtle Beach as "distinguished by panoramic views of the Atlantic, calm waters and soft white sand" and "offers plenty of family attractions, making it perfect for beach-lovers with kids." Myrtle Beach was described as "a family-friendly beach destination—which means in addition to great beaches, there's plenty to do when the kids are sick of making sand castles. Amusement parks, water sports and golf courses are nearby. And family-friendly dining and hotels abound."

COASTAL LIVING MAGAZINE

"Top Ten Public Gardens America"

Brookgreen Gardens in Murrells Inlet, South Carolina, was selected as one of the "Top Ten Public Gardens America" by *Coastal Living Magazine*. The Alabama-based magazine serves more than three million readers and is a leader in lifestyle information. Brookgreen Gardens is open to the public and is located on US Highway 17 between Myrtle Beach and Pawleys Island.

HUFFINGTONPOST.COM

"Best Restaurant Cities (2013)"

The Huffington Post ranked the Myrtle Beach/Florence market as number 6 of 15 restaurant crazy cities based on the number of restaurants per capita in the area. HuffPost Food used data from The NPD Group's annual ReCount survey, which takes a yearly census of the number of restaurants in the country, to rank United States metropolitan areas by the number of restaurants per capita. The group sites the area having over 1,700 restaurants and 24 restaurants per 10,000 restaurants.

NATIONAL GEOGRAPHIC

"Top 10 U.S. Boardwalks"

National Geographic named the newly-launched Myrtle Beach Oceanfront Boardwalk and Promenade one of its *Top 10 U.S. Boardwalks*. With arcades, souvenir shops, and nightly live entertainment, the boardwalk is hailed as the town's hub of activity.

TRAVEL + LEISURE MAGAZINE

"America's Best Beach Boardwalks"

Myrtle Beach's Oceanfront Boardwalk was named by Travel + Leisure Magazine as one of *America's Best Beach Boardwalks*. Lined with shops and attractions on the north end, the boardwalk charms visitors and "revitalizes" downtown Myrtle Beach.

GOLF WORLD

"2010 Reader's Choice Awards"

Golf World readers named the Dunes Golf & Beach Club as one of the top 50 resort golf courses in the United States. Courses were evaluated by the following criteria: quality, condition, reputation, prestige, golf practice facilities, speed of play, clubhouse and locker rooms, hotel accommodations, caddie program, golf pro shop, food and dining, off-course activities and amenities, service and overall value. The Dunes Golf and Beach Club has remained a world class course since it opened its doors in 1947.

LONG-TERM PLANNING

Sustained unprecedented growth places many demands on the District. Determining future facility needs and their locations; performing enrollment forecasting and monitoring; performing redistricting analysis and making long-term recommendations; and assisting with developing long-range comprehensive facility plans present staff with challenges to meet the District's needs caused by this growth.

The District's strategic planning process represents a collaborative effort of engaging educators and citizens in the decision-making process for their schools. Each of the District's schools has developed a strategic plan, following the same process of involving stakeholders as used by the District's planning process. More than 5,000 teachers, parents, community members and students have served as planning or action team members at the District or school level. The District has recently updated the Strategic Plan in the spring of 2016. Through this planning process, the needs and challenges facing the District through 2021 will be met. On May 4, 2016, the District earned the distinction of accreditation by AdvancED.

The District promotes the philosophy of site-based management, employing intense involvement by school principals, staff and community members studying the needs of schools, instructional programs, administrative management, and fiscal authority. Extensive staff development plans continue for teachers and staff at every level of the organization.

The Horry County Board of Education is governed by policies designed to focus the District's attention on "Student Achievement Results," clearly delineating what students should know, understand, and be able to do upon exiting Horry County Schools. Goals are stated in terms of increased student achievement. A literacy program, which offers a structured delivery of reading and writing instruction, has already been implemented in grades K-12 and is only the beginning of the District's planned improvements in education.

In the last ten years, Horry County Schools' enrollment has grown over 7,151 students. Of the District's 58 school facilities, 11 of them are operating over capacity. To temporarily cope with growth, more than 200 portable classrooms are in use and attendance lines have been redrawn to deal with the swelling population. Looking to the future, the District anticipates the enrollment to increase from 42,912 students in fiscal year 2016-17 to over 45,042 students by fiscal year 2020-21.

As Horry County grows, so grows the need for new schools and classrooms. Although the ages of the facilities range up to 51 years, all buildings have been renovated and/or retrofitted to provide similar accommodations across the District.

In February 2012, Horry County Schools initiated a Long-Term Facility Plan. The purpose of the plan is to evaluate the adequacy of existing educational facilities, plan for future capital facilities spending and address how the student population will be housed over the next 10 years. This document also provides for facility improvements or adjustments to the programmatic needs of the District. This report contains data and analysis that will provide the basis for decisions regarding when and where to build new capacity, renovate existing facilities, replace facilities, and when and how to provide sustainment activities to maintain our facilities to the highest quality.

Additionally, this report provided a comprehensive analysis of athletic facilities, playgrounds, and grounds along with recommendations for improvements to these areas. The District also produced a set of Educational Specifications. That document provides the guidance necessary to ensure that school facilities are planned and designed to support the mission and vision of Horry County Schools. The total projected cost of the Long-Term Facility Plan was over \$633.9 million.

Construction Document Scanning and archiving will complete the digitization of over 200,000 construction documents stored in the warehouse. Capacity & Higher Utilization Planning will assist with developing capacity analysis and higher utilization modifications needed to handle growth and program additions in the future.

The Long-Term Facility Plan focused on a comprehensive approach to all facilities including custodial, maintenance, and capital improvements. The *revised* plan focuses on establishing a <u>capital plan</u> within forecasted revenue from 2013-14 to 2023-24 and Board priorities established on June 15, 2013. The Capital Plan was approved on September 30, 2013, revised on June 9, 2014, revised June 30, 2014, revised July 28, 2014, revised May 26, 2015, revised July 29, 2015, revised on July 28, 2015, revised on November 2, 2015, revised on June 6, 2016, and revised on October 24, 2016, to the current Board Approved Short-term Capital Plan as indicated on the next page.

Short-term Capital Plan

Current Board Approved Project List	Total	Proposed Completion Date
Addition & Renovation - NMB Middle	9,660,750	Operational August 2017

HONORS AND DISTINCTIONS

Our Performance

Horry County Schools is fully-accredited by AdvancED, a non-profit, non-partisan organization that conducts rigorous, on-site external reviews of Pre-K-12 schools and school systems to ensure that all learners realize their full potential. Combining the knowledge and expertise of a research institute, the skills of a management consulting firm and the passion of a grassroots movement for educational change, AdvanceED is a trusted partner to 34,000 schools and school systems across the United States and 70 other nations.

In a concurrent evaluation, the Academy for the Arts, Science, and Technology was awarded the new AdvancED STEM Certification as an accredited whole school STEM site, distinguishing the Academy as a highly-effective school that prioritizes education in science, technology, engineering and math.

Results from the College Board showed a record 46 point gain on the SAT for college-bound Horry County Schools' students. The District's 2016 composite score on the three-part test rose to 1,535 and is 51 points above the national average of 1,484. HCS students surpassed the state average of 1,425 by 77 points.

Horry County Schools was South Carolina's first recipient of the prestigious Apple Distinguished Education Program award, which is given to schools that demonstrate visionary leadership, innovative learning and teaching, and compelling evidence of success implementing digital learning.

HCS surpassed statewide performance on ACT WorkKeys®. Over eighty-nine percent of Horry County Schools' students demonstrated work readiness in the first statewide administration of ACT WorkKeys®.

Horry County Schools' students scored higher than the State on all End-of-Course tests.

School and Team Awards

U.S. News and World Report listed St. James, Aynor and Myrtle Beach high schools in their annual Best High School rankings; each receiving a Silver award for high performance and college readiness.

St. James High was named a Palmetto's Finest award winner by the South Carolina Association of School Administrators. Each year, one high school, one middle school and two elementary schools in the state are named Palmetto's Finest for offering the best in innovative and effective educational programs.

Burgess Elementary School was awarded as the 2016 SC Green Steps Overall School of the Year.

River Oaks, Seaside, and Burgess elementary schools received the Horry County Outstanding School Award for their efforts in recycling, composting, gardening and overall sustainability.

Burgess Elementary School received the ASCD Whole Child Award.

St. James High and St. James Elementary School Improvement Councils are two of sixteen named to South Carolina School Improvement Council's 2017 Honor Roll.

The Ocean Bay Middle School Roboray's Lego robotics team took the Champions Award, First Place at the FIRST Lego League East State Championship and competed in the World competition in St. Louis.

Aynor High School Softball team won the AA SC State Title.

St. James High Girls Golf team won the 2016 Class AAAA SC State Title.

St. James High School Softball team honored as having 9th best team GPA in the nation, according to the National Fastpitch Coaches Association.

Carolina Forest High's Show Choir was featured on Dance Network's "To the Stage."

Student Awards

John Mastrobert, a senior at Horry County Schools' Scholars Academy and Carolina Forest High School, was one of 11 students worldwide to earn a perfect score on the AP BC Calculus exam.

Socastee High's Jenny Rogers was the 2016 Congressional Art Competition Winner for her acrylic painting, "Light."

Forestbrook Middle's Skyler Kistenmacher had his poem published in the "Your Own Pages" section of the September 2016 issue of Highlights magazine.

Myrtle Beach High's Ethan Epstein won the Class AAA State individual championship for the 3,200 meter dash.

St James High's Michael Mewhorter claimed the Class AAA State individual wrestling title.

Myrtle Beach High's Alex Burroughs became a recent recipient of the South Carolina Youth of the Year Award from the State's Boys and Girls Club.

Aynor High's salutatorian for the Class of 2016, Bailey Richardson, is the first woman to be awarded The Citadel's Star of the West Scholarship.

Staff Awards

John Cahill of Myrtle Beach High School was named 2015-16 Athletic Director of the Year by the South Carolina Athletic Administrators Association.

Dr. Jim Berry of Conway High School was presented the 2016 Most Distinguished Athletic Trainer Award by the National Athletic Trainer's Association.

Kim Rothberg, a Carolina Forest Elementary 5th grade teacher, was a SC finalist for the Presidential Award for Excellence in Mathematics and Science Teaching.

Lynn Quinn of St. James Elementary was named the 2016 Elementary Teacher of the Year by the South Carolina Bar Association's Law Related Education (LRE) Division.

Samantha DeCerbo, a teacher at HCS Early College High School, was among 23 teachers selected to be a Behring Teacher Ambassador for National History Day® during the 2016-2017 school year.

HCS awarded Budget Awards

The District has received the Distinguished Budget Presentation Award from the Government Finance Officers Association and the Meritorious Budget Award from the Association of School Business Officials International.

HCS awarded Certificate of Achievement for Excellence in Financial Reporting

The Association of School Business Officials International (ASBO) awarded a Certificate of Excellence in Financial Reporting to Horry County School District for its comprehensive annual financial report for the past fifteen fiscal years. A Certificate of Excellence is valid for a period of one year only. We believe our current comprehensive annual financial report continues to meet the Certificate of Excellence Program's requirements, and we are submitting it to the ASBO to determine its eligibility for another certificate.

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Horry County School District for its comprehensive annual financial report for the past fifteen fiscal years. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

ACKNOWLEDGMENTS

The completion of this Comprehensive Annual Financial Report could not have been accomplished without the professionalism and dedication of the entire Fiscal Services staff. Each staff member has our sincere appreciation for their contributions in the timely closing of financial records. We also acknowledge and thank the other District departments for assistance in the presentation of information for this report.

In closing, without the leadership and support of the Superintendent and the Horry County Schools' Board of Education, the outstanding results described in the Fiscal Year 2017 Comprehensive Annual Financial Report would not have been possible.

Respectfully Submitted,

John K. Gardner Chief Financial Officer

Chief Support Services Officer	Daryl Brown
Chief Financial Officer	John K. Gardner
Chief Human Resources Officer	Mary J. Anderson
Chief Information & Accountability Officer	Edward Boyd
Chief Instructional Support Officer	Carolyn J. Chestnut

Dr. Rick Maxey, Superintendent of Schools: The Horry County Board of Education appointed Dr. Maxey the Superintendent of Schools in June 2015 after a six-month appointment as the Acting Superintendent. Dr. Maxey has more than 30 years of career experience, to include three years as the District's Deputy Superintendent and other leadership roles in District operations, support services, middle school and secondary education, and special education.

Before he began working as a District administrator, Dr. Maxey was the principal of Conway High School for five years and of Carolina Forest High School for two years. He was an assistant principal and technology coordinator for Loris High School after six years of teaching English at the school. Before working for Horry County Schools, Dr. Maxey was an English instructor at both Presbyterian College and Clemson University.

Dr. Maxey earned master's and doctoral degrees in Educational Leadership from the University of South Carolina. He also holds master's and bachelor's degrees in English from Clemson University. He and his wife, Vencie, are career educators and the parents of two adult sons.

Joe J. DeFeo, Chairperson – Mr. DeFeo is the Chairman of the Horry County Board of Education. DeFeo was first elected to represent District 3 in 2006 and is in his second term as the county-wide chairman. Mr. DeFeo was born in Philadelphia, PA. He attended Burlington Community College and Trenton State College and has a degree in Electronics Technology. A former NJ police officer, Mr. DeFeo moved to Myrtle Beach 35 years ago. He has twenty years of experience working in the aviation industry and as a corporate pilot. A passionate aviator, DeFeo maintains his commercial pilot's license and mechanic's certificate to enable him to continue to enjoy the freedom of flight. He has three children, Megan, Joseph, and Annah, and is engaged to Sandra Lucas-Hyde.

Holly Heniford, District 1 – Ms. Heniford was elected to the School Board in November 2014. A native of Horry County and a graduate of Loris High School, Heniford is a licensed real estate broker in the Carolinas and is currently the broker-in-charge of B Mack & Co. Real Estate in North Myrtle Beach. Heniford has served as a member of the Board of Directors for Sandhills Bank, the Grand Strand Board of Realtors, and the Horry Georgetown Home Builders Association. She served on the Horry County Planning Commission from 2004-2009. She earned degrees from the Art Institute and Brenau Women's College, which are both in Georgia. She earned a master's degree in human resource management from Webster University in Myrtle Beach. She is the mother of one daughter, Carly, who attended Horry County Schools and now attends college.

Sherrie Todd, District 2 – Ms. Todd was elected to the School Board in November 2014. She is a life-long resident of Myrtle Beach and a retired Horry County Schools teacher. Todd earned a master's degree in career and technology education from the University of South Carolina and serves on the Book Adoption Committee for the South Carolina Department of Education. In addition to her career teaching at the secondary level, Todd also teaches as an adjunct instructor at Horry Georgetown Technical College. Todd is a small business owner and the president of Hair Heirs, Inc., LLC. She has served four terms on the Board of Trustees for the Horry County Museum. Todd and her husband, Ting, have two adult daughters, one adult son, and six grandchildren.

Ray H. Winters, District 3 – Mr. Winters was elected as a member of the Board of Education in November 2014. He obtained his undergraduate degrees in History and Political Science from the University of South Alabama as well as his Masters from USA in Public Administration in 1994. He received his Juris Doctorate from Loyola University (New Orleans) in 1998. Ray is a licensed attorney in the states of South Carolina and Alabama, as well as the U. S. Tax Court. He is the managing attorney of his own law practice that focuses on real estate, corporate and business transactions, and other basic transactional matters. He and his wife, Tracy, have one daughter, Alyssa.

David Cox, District 4 – Mr. Cox was elected to the Board of Education in November 2008. Mr. Cox is employed by Elliott Realty in North Myrtle Beach. He is a graduate of the University of South Carolina with a Bachelor of Arts degree in Journalism. He is married with children and grandchildren.

Janice Morreale, District 5 – Ms. Morreale was elected to the Board of Education in November 2012. She is a graduate of Horry Georgetown Technical College with an Associate's Degree in Public Service Technology. She is a paralegal at Nelson Mullins Riley and Scarborough. Mrs. Morreale and her husband, John, have two children, Anthony and Gabriel.

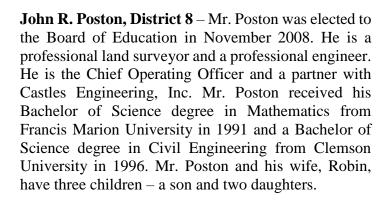

Pamela C. Timms, District 6 – Ms. Timms has been a member of the Horry County Schools' Board of Education since November 1998. A native of Horry County, Ms. Timms is a 1972 graduate of Myrtle Beach High School and attended Coastal Carolina's school of nursing program from 1973-76. Ms. Timms is nationally certified as a professional activity director (NAAP) and a member of the South Carolina Activity Professional Association (SCAPA). She is employed as Director of Activities at Reflections Assisted Living in Carolina Forest. Ms. Timms has one daughter, Sarah Elizabeth, and one granddaughter.

Janet P. Graham, District 7 – Ms. Graham was appointed to the Board of Education in September 2012 and was elected in November 2014. She is an Area Manager for the Myrtle Beach Area Small Business Development Center (SBDC) at Coastal Carolina University. Ms. Graham received a Bachelor's Degree in Finance from Coastal Carolina University in 2000 and a Master of Business Administration from Winthrop University in 2004. Janet and her husband Gregory have three children and nine grandchildren.

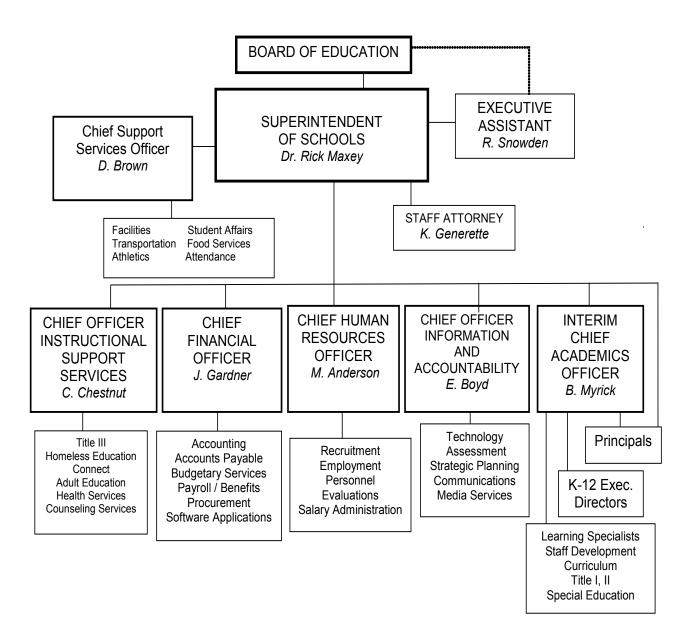

Chris Hardwick, District 9 – Mr. Hardwick was elected to the Board of Education in 2016. He is the owner and president of Hardwick Funeral Home in Loris. He graduated from the University of South Carolina with degrees in English and Business Management and from Gupton-Jones College with a degree in Mortuary Science. Mr. Hardwick is a former president of the Loris Area Chamber of Commerce and attends the Loris Presbyterian Church. He and his wife, Cindy, have two daughters.

Neil James, Vice-Chairman, District 10 – Mr. James was appointed to the Board of Education in November 2009 and elected in 2010 and again in 2014. He is a professional engineer (PE) and holds a BS in Agricultural Engineering and a BS in Electrical Engineering from Clemson University, and an MBA from Webster University. Mr. James is employed by Santee Cooper. He and his wife, Felicia, have two daughters.

Shanda Allen, District 11 – Mrs. Allen was elected to the Board of Education in 2016. She is the owner and operator of Allen Aviation, Inc., and has served on the Higher Education Commission at Coastal Carolina University. Mrs. Allen is a native to Horry County. She and her husband, Al, have two children.

For its Comprehensive Annual Financial Report for the Fiscal Year Ended

June 30, 2016

Executive Director/CEO

Independent Auditor's Report

To the Board of Education Horry County Schools Conway, South Carolina

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of Horry County Schools (the "School District") as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial positions of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the School District as of June 30, 2017, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, pension schedules, and budgetary comparison schedules, as presented in the Table of Contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School District's basic financial statements. The other supplementary schedules, introductory section, the statistical section, as presented in the Table of Contents, and the accompanying schedule of expenditures of federal awards are presented for purposes of additional analysis and are not a required part of the financial statements.

The other supplementary schedules and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information and the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.

The introductory and statistical sections have not been subjected to auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 30, 2017, on our consideration of the School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

Charleston, South Carolina November 30, 2017

HORRY COUNTY SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A) YEAR ENDED JUNE 30, 2017

The discussion and analysis of Horry County School District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2017. We encourage readers to consider this information in conjunction with the additional information in the District's financial statements, and the accompanying notes to those financial statements.

FINANCIAL HIGHLIGHTS

Although the District's total net position for 2016-17 increased by \$36.6 million, the implementation
of GASB Statement 68 continues to have a significant impact on the School District's ending net
position. This Statement requires the District to recognize a net pension liability, deferred outflows
of resources, and deferred inflows of resources due to its participation in the South Carolina
Retirement System and South Carolina Police Officers Retirement System.

The continued application of the accounting standard has lowered the District's net position by \$463.1 million. The District's total net position (as reported on the Government-wide Statement of Net Position) as of June 30, 2017, was \$151.6 million.

- Our principal operating fund, the General Fund, had \$375.7 million in fiscal year 2017 revenues, which primarily consisted of state aid and property taxes. In addition, the General Fund had \$11.3 million in other financing sources, which consisted primarily of transfers from the Special Revenue Fund in the form of indirect cost and teacher salary supplement transfers. The General Fund incurred \$376.3 million in expenditures, as well as \$.8 million in other financing uses.
- The General Fund's fund balance increased from \$91.9 million as of June 30, 2016, to \$101.8 million as of June 30, 2017. In the 2016-17 funding plan, the District planned to utilize \$7.7 from fund balance. This significant change in fund balance was the result of several events. The District received \$5.9 million more in total revenues than was budgeted. This was most notably the result of a \$3.2 million increase in budgeted Education Finance Act (EFA) revenues and a \$2.7 million increase in fringe benefit employer contributions and retiree insurance revenues. Analysis of ad valorem taxes indicate that the district received over 99.6% of the budgeted revenues for 2016-17.
- Analysis of the positive budget variances related to expenditures indicate \$10.9 million in salaries and employee benefits and \$5.8 million in operating expenditures contributed to the surplus. As it is the District's position to budget all vacant positions at the full complement, it is not uncommon for the District to have unspent funds in salaries and employee benefits at the fiscal year end. In addition, it is the policy of the District to assign fund balance in the subsequent year for certain items not received prior to the fiscal year end and to assign reserve funds for workers' compensation claims. Included in the \$5.8 million operating expenditure surplus was \$4.5 million assigned from fiscal year 2016.
- The District's total general obligation debt decreased by \$22.9 million during fiscal year 2017 to \$444.6 million due to scheduled principal payments.
- The District currently has a Standard & Poor's underlying rating of AA and a Moody's Investor Services underlying rating of Aa2.

• The District's only Proprietary Fund is the Food Service Fund. The fund ended the year with expenses and transfers exceeding revenues by (\$422,660) and total net position equaling (\$304,646).

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements (General, Special Revenue, Debt Service, Capital Projects, Fiduciary, and Proprietary), and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves. A description of these statements and some related definitions follow:

Government-wide Financial Statements: The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private sector business. These statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues (governmental activities) and functions principally supported by user charges (business type activities). The governmental activities of the District include instruction, support services, community services, and intergovernmental activities. The District's food service operation is reported as a business type activity. Short-term and long-term information about the District's overall financial status is provided in these statements. These statements are prepared utilizing the accrual basis of accounting which takes into account all current year revenues and expenses regardless of when cash is received or paid.

The government-wide financial statements include not only the District itself (known as the primary government), but also the component units of Waccamaw Park Public Charter Schools, Inc. (also known as Bridgewater Academy), Palmetto Academy of Learning and Success (also known as PALS), Academy of Hope, and Palmetto Academy of Learning Motor Sports (also known as PALM). Bridgewater Academy, PALS, Academy of Hope, and PALM are charter schools sponsored by the District. Financial information for the charter schools is reported separately from the financial information presented for the primary government itself. Additional information on the District's component units can be found on page 57.

The government-wide financial statements are included on pages 46 and 47 of this report.

<u>Statement of Net Position</u>: The Statement Of Net Position presents information on all of the District's assets plus deferred outflows and liabilities plus deferred inflows except for those related to fiduciary funds, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

<u>Statement of Activities</u>: The Statement Of Activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

<u>Fund Financial Statements:</u> A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

<u>Governmental Funds:</u> Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements focus on near-term inflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements. The modified accrual basis of accounting is used for governmental funds.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. These reconciliations are on pages 49 and 51.

<u>Proprietary Funds:</u> The District maintains one type of proprietary fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The District uses an enterprise fund to account for its food service operation. Proprietary fund statements are reported on the accrual basis.

<u>Fiduciary Funds</u>: Fiduciary (Pupil Activity) funds are used to account for resources held for the benefit of students and are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The accrual basis of accounting is used for fiduciary funds.

The District maintains its accounting records in conformity with the South Carolina Department of Education's Financial Accounting Handbook. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General, Special Projects, Education Improvement Act (EIA), Debt Service and Capital Projects, all of which are considered to be major funds.

Notes to the Financial Statements: The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 57 - 84.

Other information: In addition to the basic financial statements and accompanying notes, this report also presents certain required supplemental information that further supports the financial statements with a comparison of the District's budget for the year and other supplementary information schedules required either by the State Department of Education, the Certificate of Achievement Program of the Governmental Finance Officer's Association, or the Certificate of Excellence Program of the Association of School Business Officials.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

<u>Net Position</u>. Net Position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$151.6 million as of June 30, 2017.

The following table presents a comparative analysis of the District's net position for the fiscal years ended June 30, 2017, and June 30, 2016.

Net Position (Amounts expressed in thousands)

	Governmental Activities		Business-Typ Activities		Total		
	2017	2016	2017 201		2016

Current liabilities	86,437	61,561	1,421 1,	755 87,858	63,316		
Long-term liabilities	1,045,398	1,016,971	9,646 7,	968 1,055,044	1,024,939		
Total liabilities	1,131,835	1,078,532	11,067 9,	723 1,142,902	1,088,255		
Deferred inflows of resources	5,212	7,394	(349)	288) 4,863	7,106		
Net position							
Net investment in capital assets	315,403	140,200	1,806 2,	038 317,209	411,568		
Restricted	176,491	302,736	-	- 176,491	37,509		
Unrestricted	(340,033)	(328,140)	(2,111) (1,	920) (342,144)	(334,163)		
Total net position	\$ 151,861	\$ 114,796	\$ (305) \$	118 \$ 151,556	\$ 114,914		

The following are significant current year transactions that have had an impact on the Statement of Net Position.

- The net position of the District's governmental activities increased by \$37.1 million as current year revenues exceeded current year expenses.
- The \$122.5 million decrease in cash and cash equivalents was primarily due the prior year sale of general obligation debt for the construction of five new schools.
- The \$2.8 million increase in due from federal government was due to an increase in the amount of federal reimbursement claims outstanding at fiscal year-end.
- The \$157.3 million increase in non-depreciable assets is primarily due to an increase in construction in progress due to the ongoing construction of five new schools.
- Total liabilities increased \$54.6 million primarily due to a \$61.7 million increase in the net pension liability. The increase in other liabilities is due to a \$11.1 million increase in accounts payable and other liabilities combined with a \$6.6 million increase in revenue received in advance, a \$5.7 million increase in retainage payable, and a \$1.2 million increase in accrued interest payable. This increase was offset by a \$31.7 million reduction in long-term obligations due to principal payments on outstanding debt, amortization of deferred bond premiums, and a decrease in compensated absences.
- Total deferred inflows of resources decreased \$2.2 million due to a decrease in deferred inflows related to pensions.

The District's financial position is the product of several financial transactions including the net results of activities, the restructuring and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets. The most notable impact on the District's net position was the adoption of GASB Statement 68 "Accounting and Financial Reporting for Pensions."

The following table presents a five-year comparative analysis of the District's net position for the fiscal years ended 2013 through 2017.

Net Position By Component (Amounts expressed in thousands)

	2013	2014	2015	2016	2017
Governmental Activities	\$ 437,380 \$	32,250 \$	61,337 \$	114,796 \$	151,861
Business - Type Activities	6,588	(211)	153	118	(305)
Total Primary Government	\$ 443,968 \$	32,039 \$	61,490 \$	114,914 \$	151,556

Prior to the implementation of GASB Statement 68, the largest portion of the District's positive net position reflected its net investment in capital assets (e.g., land and improvements, buildings and improvements, vehicles, furniture and equipment, and construction in progress), less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities. The restriction for Capital Projects represents residual funding for building construction scheduled in fiscal year 2018 and beyond.

An additional portion of the District's net position represents resources subject to external restrictions on how they may be used. The amount identified as restricted for Debt Service is earmarked for principal and interest payments. The remaining balance of unrestricted net position may be used to meet the District's ongoing activities.

The following table presents a five-year comparative analysis of the District's net position for the fiscal years ended 2013 through 2017.

Net Position By Classification (Amounts expressed in thousands)

	2013	2014	2015	2016	2017
Net Investment in Capital Assets	\$ 270,872	\$ 288,317	\$ 311,053	\$ 142,238	\$ 317,208
Restricted for Debt Service	27,229	27,198	26,431	36,832	34,069
Restricted for Capital Projects	54,957	56,408	61,496	265,227	141,037
Restricted for Special Projects	-	-	-	677	1,385
Unrestricted _	90,910	(339,884)	(337,490)	(330,060)	(342,143)
Total Primary Government _	\$ 443,968	\$ 32,039	\$ 61,490	\$ 114,914	\$ 151,556

As mentioned previously, the implementation of GASB Statement 68 continues to have a significant impact on the District's ending net position. The following table presents a five-year comparative analysis of the District's net pension liability for the fiscal years ended 2013 through 2017.

Net Pension Liability By Component

(Amounts expressed in thousands)

	2013		2014	2015	2016	2017
Governmental Activities	\$	-	\$ 452,587	\$ 434,410	\$ 469,632	\$ 529,681
Business - Type Activities		-	7,155	6,868	7,912	9,598
Total Primary Government	\$	-	\$ 459,742	\$ 441,278	\$ 477,544	\$ 539,279

<u>Changes in net position</u>. The District's total revenues for the fiscal year ended June 30, 2017, were \$541.5 million. The total cost of all programs and services before transfers was \$504.9 million.

The following table presents a comparative analysis of changes in net position for the fiscal years ended June 30, 2017, and June 30, 2016.

Changes in Net Position

(Amounts expressed in thousands)

Net position June 30	\$151,861	\$114,796	\$	(305)	\$ 118	\$151,556	\$114,914

The following are significant current year transactions that have had an impact on the Statement of Activities.

- Operating grants and contributions increased from the prior due to a combination of factors. The District received \$10.8 million more in Education Finance Act (EFA) revenues due to an increase in students and an increase in the per student allocation. EFA is the State of South Carolina's primary vehicle for financing public education. The District also received an additional \$5.1 million to help offset the increases in employee insurance and retirement. Unearned revenue increased in the Education Improvement Act (EIA) fund by \$4.9 million. The District expects to leverage these funds in the 2018 fiscal year. Last year, the District experienced an increase in federal receipts in the Special Projects Fund in the amount of \$1.2 million. This year we experienced an increase in the amount of \$3.0 million. The increase was mostly attributable to additional funds received from Title I, Preschool Grant, and the Individuals with Disabilities Education Act (IDEA).
- Ad valorem tax revenue increased by \$6.2 million in fiscal year 2017. Included in property taxes is the collection of the Education Capital Improvements Sales tax (additional penny sales tax) for debt service and the funding of capital improvement projects. Under the accrual approach, a receivable for property taxes (current taxes billed but not paid) is recognized as revenue less an allowance. Under the modified accrual basis, the receivable for property taxes is based on actual collections for July and August of the subsequent year.
- State Aid increased due to ACT 388. The ACT provides a 100 percent exemption from school operating tax for residential owner occupied property. In fiscal year 2008, the State fully reimbursed districts the foregone amount. The District received \$24.8 million in fiscal year 2008; however, future payments will be "frozen" at the 2008 actual reimbursement with a proportionate share of the growth in the State entitlement. The District received an additional \$.5 million as its proportionate share of the fiscal year 2017 entitlement.
- Other revenue increased due to additional interest earnings in the amount of \$1.1 million.
- Included in the expenses for 2017 was a mandated 2% cost of living increase for all certified teachers. The Board also provided a 2% longevity increase (if eligible) for certified teachers and all other employees.
- The District did incur additional operating expenses for the 2017 fiscal year. These include property insurance, employee benefits, utilities, and maintenance of facilities.
- The Proprietary Fund (Food Service Fund) experienced an increase of \$187,154 in paid lunch/breakfast sales and a decrease in USDA food service reimbursements for lunch/breakfast in the amount of \$397,238. Operating costs decreased by \$265,510. This amount was offset by an increase in the net transfer to the General Fund in the amount of \$479,659.

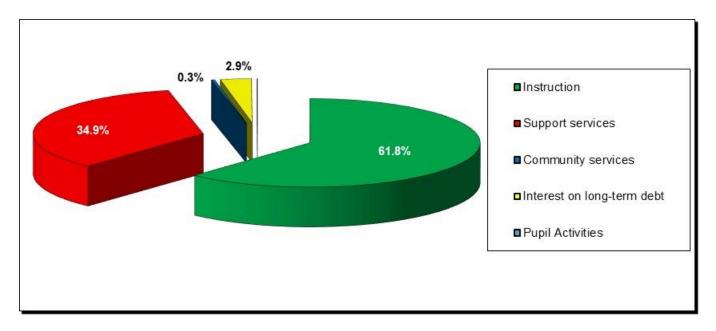

<u>Governmental activities</u>. The following table presents the cost of the five major District functional activities: instruction, support services, community services, pupil activities, and interest on long-term debt for the fiscal years ended June 30, 2017, and June 30, 2016. The table also shows each function's net cost (total cost less charges for services generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden that was placed on the State and District taxpayers by each of these functions.

Governmental Activities (Amounts expressed in thousands)

	2017					2016			
		Total		Net (Expense)		Total	Net (Expense)		
	Ex	kpenses	Revenue		Expenses		Revenue		
Instruction	\$	299,279	\$	(170,334)	\$	276,465	\$	(155,453)	
Support services		168,860		(110,619)		157,822		(106,848)	
Community services		1,491		(1,416)		1,344		(1,193)	
Pupil Activities		242		(242)		-		-	
Interest on long-term debt		14,272		(14,272)		9,406		(9,406)	
Total expenses	\$	484,144	\$	(296,883)	\$	445,037	\$	(272,900)	

- The cost of all governmental activities this fiscal year was \$484.1 million.
- Operating grants, capital grants, and charges for services subsidized certain programs in the amount of \$187.2 million.
- Net cost of governmental activities, \$296.9 million was financed by general revenues, which are
 made up primarily of property taxes in the amount of \$278.2 million and state aid of \$52.8
 million. Unrestricted grants/other contributions and other revenue accounted for \$2.3 million. In
 addition, a net transfer of \$.6 million was made to the General Fund from the Proprietary Fund.

As the graph below illustrates, the largest portion of governmental activity expenditures are for instruction.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

<u>Governmental funds.</u> The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

The General Fund is the principal operating fund of the District. As mentioned previously, the increase in fund balance in the General Fund for the fiscal year was \$9.9 million. Incorporating *nonspendable categories* that include inventories and prepaid expenditures; *assigned categories* that include encumbrances and subsequent years' expenditures; the remaining *unassigned* fund balance is \$80.5 million. It is the policy of the Board of Education to designate 15 percent of the prior year's General Fund expenditures as a minimum fund balance designation as advised by the District's bond counsel and financial advisors. Therefore, \$56.4 million of the *unassigned* fund balance is utilized to address cash flow requirements pending the receipt of local property tax revenues. The remaining \$24.1 million of *unassigned* fund balance is available for future Board initiatives.

The Debt Service fund balance showed a decrease of \$2.7 million from the prior year. Incorporating the positive budgeted variance of \$.4 million, this decrease is net result of \$.9 million in additional property tax revenue, \$7.0 million in additional receipts from Education Capital Improvements tax, a \$.7 million decrease in debt service payments and a \$11.7 million increase in the transfer of funds to the Capital Projects Fund. The additional penny sales tax enacted in March 2009 allows all consumers, including more than 14 million people who visit our area each year, to help support the needs of educational facilities. Penny revenues allowed the school district to reduce the debt service millage from 28 to 10 mills over fiscal years' 2009 - 2012. In addition to rolling-back property taxes and broadening the tax base, the penny sales tax will enable Horry County Schools, Coastal Carolina University, and Horry Georgetown Technical College to collaborate on more shared initiatives to increase access and services to students of all ages. The penny sales tax does not apply to groceries, gasoline or prescription drugs.

The District maintains sufficient fund balance in the Debt Service Fund to pay the ensuing six-month principal and interest payments on general obligation debt. By statute, only funds received and certified as of June 30 could be considered in the establishment of millage for 2017-18 principal and interest payments.

In 2012, the District completed a comprehensive Long-Term Facility Plan. The Plan was initiated to evaluate the adequacy of existing educational facilities, plan for future capital facilities spending and address how the student population will be housed over the next 10 years. After several revisions to the facility plan during 2015-16, the District awarded contracts to build 3 new middle schools, 1 new intermediate school, and one new elementary school in November 2015. Three of these schools were operational when school began in August 2017 and the remaining two are expected to open in 2017-18.

The Capital Projects fund balance decreased from \$265.2 million to \$116.8 million due to the construction of the new schools. The funding for existing as well as future projects will be provided from the utilization of the Capital Projects fund balance and from the Education Capital Improvements tax. In 2017, \$43.6 million was transferred from the Debt Service fund to the Capital Projects fund. As capital projects may span fiscal years, the Capital Projects fund balance is restricted for these commitments.

<u>Proprietary funds.</u> The Proprietary Fund (Food Service Fund) showed a decrease in net position in the amount of \$422,660 compared with a \$34,770 decrease in the prior year. Operating revenues, comprised of proceeds from sales of meals, increased by \$144,771 and operating expenses decreased by \$265,510. Non-Operating Revenues, primarily composed of USDA food service reimbursements, decreased by \$318,512. Net transfers to/from General Fund increased by \$479,659 due to the recalculation of support for food service fringe benefits.

GENERAL FUND BUDGETARY HIGHLIGHTS

The net change between the General Fund's expenditure original budget and final budget, which include budgeted transfers out (\$4.9 million), is primarily due to the prior year assignments of fund balance, insurance claims, and contributions and donations. The table below indicates the changes:

Reserve for workers compensation	\$ 2,474,669
School carryover budgets and enrollment adjustments	496,745
Subsequent years expenditures	193,389
Summer staff development activities	189,238
Bus security camera system upgrades	436,538
Board of Education funds	90,000
Purchase 2 vans	76,000
Insurance claims	388,963
Modular classrooms	500,000
Rental for temporary relocation of Adult Ed programs	78,000
	\$ 4,923,542

The net change between the General Fund's revenue and other financing sources' original budget and final budget \$388,963, which is due to reimbursement from insurance claims.

CAPITAL ASSETS AND DEBT ADMINISTRATION

<u>Capital Assets</u>. As of June 30, 2017, the District had invested \$1,123.3 million in capital assets, which includes land, school buildings, construction in progress, athletic facilities, buses and other vehicles, computers, and other equipment. Accumulated depreciation was \$282.2 million including current depreciation expense of \$19.9 million for the year.

The following schedule presents capital asset balances net of depreciation for the fiscal years ended June 30, 2017, and June 30, 2016.

Capital Asset Balances Net of Depreciation (Amounts expressed in thousands)

	Governmental			ss-Type		
	Activ	/ities	Activ	/ities	Total	
	2017	2016	2017	2016	2017	2016
Land	\$ 26,797	\$ 26,797	\$ -	\$ -	\$ 26,797	\$ 26,797
Buildings and improvements	543,078	534,113	-	-	543,078	534,113
Improvements other than buildings	28,869	30,728	-	-	28,869	30,728
Autos and trucks	5,534	5,104	-	1	5,534	5,105
Machinery and equipment	7,707	6,724	1,806	2,037	9,513	8,761
Construction in progress	227,312	70,035		-	227,312	70,035
Total	\$839,297	\$673,501	\$1,806	\$2,038	\$841,103	\$675,539

Additional information on the District's capital assets can be found in Note 5 of this report.

<u>Debt Administration</u>: At year-end, the District had \$371.8 million in general obligation bonds and \$72.8 million in special obligation bonds outstanding, of which \$38.6 million in principal and interest payments are due within one year. The following table presents a summary of the District's outstanding long-term debt for the fiscal years ended June 30, 2017, and June 30, 2016.

Outstanding Debt (Amounts expressed in millions)

	;	2017	2016
8% General obligation debt	\$	125.0	\$ 125.0
Special obligation debt		72.8	72.8
Referendum general obligation debt		246.8	 269.7
Total	_\$	444.6	\$ 467.5

State statutes currently limit the amount of general obligation debt a District may issue to 8 percent of its total assessed valuation. Additional information on the District's long-term debt can be found in Note 6 of this report.

NEXT YEAR'S BUDGET

The 2017-18 comprehensive budget as proposed by the administration represents months of involvement by various stakeholders. This budget incorporates the parameters established by the Board of Education for the 2017-18 fiscal year:

- 1. The District will comply with all applicable State and/or Federal laws and regulations.
- 2. Resources will support the District's vision to be a premier world-class school system in which every student acquires an excellent education.
- 3. The District will provide the curriculum programs and instructional support which have been proven to be effective for students, with a primary emphasis on literacy.
- 4. The District must provide the instructional support essential to meet the State and Local accountability goals.
- 5. The District must provide resources for unfunded mandates.
- 6. The support services and operational aspects of the District will be maintained such that the essential services provided to students and staff will be continued.
- 7. The District will identify funding sources for new programs and/or initiatives.

The District expects to serve approximately 741 new students when school begins in August. Funding is included in the budget to accommodate the instructional needs of these students as well as to provide services to newly identified special needs, gifted, and non-English speaking students.

The District will incur additional operating expenses for the 2017-18 fiscal year. These include increases in retirement, health insurance, and other fixed costs. Additionally, the 2017-18 funding plan incorporates a 2% salary increase for all eligible employees.

The 2017-18 funding plan also includes staffing and operational expenses for the new Ten Oaks Middle School, the new St. James Intermediate School, the new Socastee Middle School, the replacement for Myrtle Beach Middle School, and the replacement for Socastee Elementary School.

Although there is always a great deal of uncertainty regarding State funding, it was fortunate that the House Ways & Means Committee approved the continuation of the proviso regarding the imputation of 4% property in the calculation of the index of tax paying ability (ITA). This action allowed the District to develop a more pragmatic approach for sharing information to the Board regarding the state of the 2017-18 budget. The full House is also in support of the proviso, and the Senate concurred.

Revenue projections are generally based on the Senate version of the state budget, where appropriate. Otherwise, projections are based on the current year allocations. Property tax revenues have seen a modest increase for the past several years. The 2017-18 funding plan anticipates that this growth will continue next year.

ACT 388 limits millage increases to the percent of growth in CPI and the population growth of the County. Based on information received from the South Carolina Revenue and Fiscal Affairs Office, the CPI increased 1.26% and the population increase for the County is 4.02%. Under this statute, the District cannot exceed a 5.28% or 6.4 mill increase for operations.

The district administration is pleased to provide to the Board of Education the comprehensive budget for 2017-18. This budget does not include a millage increase for operations or debt service.

The 2017-18 General Fund budget indicates the utilization of \$13.3 million of the unassigned fund balance. The fund balance at June 30, 2017, for the General Fund is \$101.8 million. This amount maintains the Board established minimum of 15% and provides adequate reserves for 2017-18.

This budget allows the District to continue the significant progress in academic achievement and addresses the instructional and operational needs of serving a growing student population.

The following table presents a summary of the original budgets for the District's Government Funds for the years 2017-18 and 2016-17.

	2017-18	2016-17	Change
Governmental Funds Budget (total)	\$655,520,490	\$776,668,407	\$(121,147,917)
General Fund	408,636,793	389,023,451	19,613,342

Horry County Schools Reconciliation of Balance Sheet of Governmental Funds to the Statement of Net Position June 30, 2017	
Total governmental fund balances	\$ 252,312,049
Amounts reported for governmental activities in the Statement of Net Position are different because of the following:	
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in governmental funds. The cost of capital assets was \$1,117,189,191 and the accumulated depreciation was \$277,892,629.	839,296,562
Property taxes receivable are not available to pay for current period expenditures and, therefore are deferred in the funds.	22,534,700
Bond premiums are amortized in the Statement of Net Position. The premiums of \$89,512,123 have been amortized by \$21,915,006.	(67,597,117)
Some assets (liabilities), including bonds payable, are not due and payable in the current period and therefore are not reported in the funds:	
Compensated absences	(3,560,181)
Deferred refunding	12,517,789
Bonds payable	(444,560,000)
Accrued interest	(3,481,446)
Pension related deferrals	45,405,156
Contributions to the pension plan in the current fiscal year	28,674,868
Pension obligation	 (529,681,055)
Net position of governmental activities	\$ 151,861,325

See Notes to Financial Statements

Horry County Schools Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the year ended June 30, 2017	
Net change in fund balance - total governmental funds	\$ (140,891,582)
Amounts reported for governmental activities in the Statement of Activities are different because of the following:	
Capital outlays are reported in governmental funds as expenditures. However, in the Statement of Activities, the cost of those capital assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capitalized items acquired (\$185,660,335) exceeded net depreciation expense (\$19,865,168).	165,795,167
Repayment of long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position. In the current year, these amounts consisted of bond principal retirements.	22,945,000
Because some property taxes will not be collected for several months after the School District's fiscal year ends, they are not considered "available" revenues and are deferred in the governmental funds. Unearned tax revenues decreased by this amount in the current year.	(1,392)
Governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the Statement of Activities. This is the amount that the net amortization of bond premiums (\$8,198,581) exceed the amortization of the deferred refunding (\$1,585,127) in the current year.	6,613,454
In the Statement of Activities, compensated absences (sick pay and vacation) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially the amount actually paid). This year vacation and sick leave used (\$1,791,582) exceeds vacation and sick leave earned (\$1,313,600). This amount is adjusted by the decrease in compensated absences that has already been included in the governmental funds.	477,982
Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus required the use of current financial resources. In the Statement of Activities, however, interest expense is recognized as it accrues, regardless of when it is due. Accrued interest increased by this amount during the year.	(1,195,493)
Contributions to the pension plan in the current fiscal year are not included on the Statement of Activities.	28,674,868
Some expenses in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. These activities consist of:	
School District's portion of pension expense	(45,353,043)
Change in net position of governmental activities	\$ 37,064,961

Notes to Basic Financial Statements For the fiscal year ended June 30, 2017

Note 1. Summary of Significant Accounting Policies

The accounting policies of Horry County Schools conform to accounting principles generally accepted in the United States of America as applicable to governments. The following is a summary of the more significant accounting policies:

A. Reporting Entity

Horry County Schools (the School District) is a Local Education Agency empowered by State law with the responsibility to oversee and control all activities related to public school education in Horry County, South Carolina. The School District receives State, Local and Federal government funding and must adhere to the legal requirements of each funding entity. Educational services are provided to approximately 42,000 students residing in Horry County, South Carolina. The School District operates under the direction of an elected Board of Education. A Superintendent, hired by the Board, serves as the chief administrative officer of the School District.

The financial reporting entity consists of the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion could cause the financial statements to be misleading or incomplete. The primary entity is financially accountable if it appoints a voting majority of the organization's governing body including situations in which the voting majority consists of the primary entity's officials serving as required by law and (1) it is able to impose its will on that organization or (2) there is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary entity. The primary entity also may be financially accountable if an organization is fiscally dependent on it even if it does not appoint a voting majority of the Board. An organization is fiscally dependent on the primary entity that holds one or more of the following powers: determine its budget without another government having the authority to approve and modify that budget, levy taxes or set rates or charges without approval by another government, and issue bonded debt without approval by another government.

As required by accounting principles generally accepted in the United States of America, these financial statements present the School District and its component units, entities for which the School District is considered to be financially accountable or for which exclusion of a component unit would render the financial statements incomplete or misleading. The discretely presented component units are reported in a separate column in the basic financial statements to emphasize they are legally separate from the School District.

Discretely Presented Component Units: Waccamaw Park Public Charter Schools, Inc., d/b/a Bridgewater Academy, Palmetto Academy of Learning and Success, Academy of Hope, Inc. and Palmetto Academy for Learning Motorsports, are charter schools chartered under legislation enacted on June 18, 1996. Educational services are provided to approximately 700 students residing in Horry County, South Carolina. These charter schools are fiscally dependent on the School District and exclusion of the charter schools would cause the School District's financial statements to be incomplete, the financial statements of the charter schools are included in those of the School District.

Notes to Basic Financial Statements For the fiscal year ended June 30, 2017

Note 1. Summary of Significant Accounting Policies, Continued

A. Reporting Entity, Continued

Complete separately issued financial statements may be obtained for each of the charter schools from the administrative offices of Bridgewater Academy, 161 River Landing Blvd, Myrtle Beach, SC 29579, Palmetto Academy of Learning and Success, 3021 Fred Nash Road, Myrtle Beach, SC 29577, Academy of Hope, 3521 Juniper Bay Road, Conway, SC 29527 and Palmetto Academy for Learning Motorsports, 136 Rodeo Drive, Myrtle Beach, SC 29579.

The School District evaluated its current and potential component units and made the determination that the charter schools noted above are the only component units required to be included in its financial statements at June 30, 2017.

B. Basis of Presentation

The financial statement presentation provides a comprehensive, entity-wide perspective of the School District's net position, revenue, expenses and changes in net position and, as applicable, cash flows that replace the fund-group perspective previously required. The statements of the School District are presented as follows:

Government-wide Financial Statements: The Statement of Net Position and the Statement of Activities display information about the School District. These statements include the financial activities of the overall government, except for fiduciary activities. The effect of interfund activity has been eliminated from these statements except for interfund services provided and used. These statements distinguish between the governmental and business-type activities of the School District. Governmental activities generally are financed through intergovernmental revenues and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties. The Statement of Activities presents a comparison between direct expenses and program revenues for the business-type activity of the School District and each function of the School District's governmental activities. Direct expenses are those that are specifically associated with a program or function, and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been eliminated for the Statement of Activities. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not program revenues are presented as general revenues.

The government-wide financial statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide financial statements and the financial statements for governmental funds.

Notes to Basic Financial Statements For the fiscal year ended June 30, 2017

Note 1. Summary of Significant Accounting Policies, Continued

B. Basis of Presentation, Continued

Fund Financial Statements: The School District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain School District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the School District are grouped into governmental, enterprise and fiduciary fund types.

Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is separated as fund balance. The following are the School District's major governmental funds:

General Fund: The General Fund is the general operating fund of the School District. The General Fund accounts for all financial resources not accounted for and reported in another fund.

Special Revenue Fund - Special Projects Fund: This fund is used to account for and report the financial resources provided by federal, state and local projects and grants that are restricted, committed or assigned for specific educational programs.

Special Revenue Fund - Education Improvement Act: This fund is used to account for and report the restricted revenue from the South Carolina Education Improvement Act of 1984 which are restricted for specific programs authorized or mandated by EIA.

Debt Service Fund: This fund is used to account for and report the accumulation of restricted resources for and the payment of general long-term debt, principal and interest.

Capital Projects Fund: This fund is used to account for and report all financial resources that are restricted to expenditure for capital outlays, other than those financed by proprietary and trust funds. Capital projects are funded by proceeds of bonds issued for public school construction and from certain State assistance and grants.

Proprietary Fund: Proprietary funds are used to account for activities similar to those found in the private sector, where the determination of net income is necessary or useful to provide sound financial administration. Goods or services from such activities can be provided either to outside parties (enterprise funds) or to other departments or agencies primarily within the government (internal service funds). The School District has no internal service funds.

Notes to Basic Financial Statements For the fiscal year ended June 30, 2017

Note 1. Summary of Significant Accounting Policies, Continued

B. Basis of Presentation, Continued

Enterprise funds account for operations (a) that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or covered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenue earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes. The School Food Service Fund is the School District's only enterprise fund and is used to account for the United States Department of Agriculture (USDA) approved school breakfast and lunch programs.

Fiduciary funds: Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the government. The School District's fiduciary funds consist of agency funds and private purpose trust funds which are custodial in nature and do not involve measurement of results of operation. The agency funds and private purpose trust funds are used to account for amounts held for student and faculty activity organizations. Fiduciary funds are not included in the government-wide financial statements. The following are the School District's fiduciary funds:

Agency Fund - Pupil Activity Fund: This fund is used to report resources held by the School District in a custodial capacity for students and student organizations.

Agency Fund - Federal Program Fund: This fund is used to report resources held by the School District in a custodial capacity to pay unemployment benefits of federal program personnel.

Private Purpose Trust Fund - Education Endowment Fund: This fund is used to account for scholarship money under the control of the School District for the benefit of the students within the School District.

Private Purpose Trust Fund - Scholarship Endowment Fund: This fund is used to account for scholarship money under the control of the School District for the benefit of the students within the School District.

C. Measurement Focus and Basis of Accounting

Government-wide, Proprietary, and Fiduciary Fund Financial Statements: The government-wide, proprietary, and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis, revenues are recognized when earned, and expenses are recorded when an obligation has been incurred, regardless of when the related cash flows take place. Non-exchange transactions, in which the School District gives (or receives) value without directly receiving (or giving) equal value in exchange, include grants and donations. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The Agency fund and Private Purpose Trust fund accounts for the receipt and disbursement of monies to and from student activity organizations or for the benefit of the Federal program fund. These funds have no equity and do not include revenues and expenditures for general operation of the School District. This accounting reflects the agency relationship of the School District with the student activity organizations and the accumulation of funds to pay Federal programs unemployment benefits.

Notes to Basic Financial Statements For the fiscal year ended June 30, 2017

Note 1. Summary of Significant Accounting Policies, Continued

C. Measurement Focus and Basis of Accounting, Continued

Government Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The School District considers all revenues reported in governmental funds to be available if the revenues are collected within sixty days after year-end. These include federal and state grants, some charges for services, and ad-valorem property taxes. Expenditures are recorded when the related fund liability is incurred, except for claims and judgments and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the School District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there is both restricted and unrestricted net position available to finance the program. It is the School District's policy to first apply cost-reimbursement grant resources to such programs and then general revenues.

Use of Resources: When both restricted and unrestricted resources are available for use, it is the School District's policy to use restricted resources first, and then unrestricted resources as they are needed.

Budgetary Data: The School District adopts an annual operating budget, which can be amended by the Board throughout the year. During the year ended June 30, 2017, there were several budget amendments. Formal budgetary accounting is employed as a management control for all funds of the School District; however, legal budgets are adopted only for the General Fund, Special Revenue Funds, Debt Service Fund and Capital Projects Fund. For each of the funds for which a formal budget is adopted, the basis of accounting used to reflect budget and actual revenues and expenditures is accounting principles generally accepted in the United States of America. Budgeted appropriations lapse at year-end for all funds.

When the Board of Education adopts a budget, it is done at the fund level of budgetary control. Because expenditures may not legally exceed budgeted appropriations, supplemental budget appropriations are made by the Board of Education, when additional revenue is identified, or for expenditures exceeding total appropriations within the legal level of control.

The School District maintains an encumbrance accounting system as one technique of accomplishing budgetary control. Encumbrance accounting is used for the General Fund, Special Revenue Fund and Capital Project Fund. Encumbrances are recorded when purchase orders are issued but are not considered expenditures until liabilities for payments are incurred. Encumbrances lapse at year end, except for the General Fund, which is carried forward as assigned fund balance until liquidated.

Cash and Cash Equivalents: For purposes of the proprietary fund statement of cash flows, the School District considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

Notes to Basic Financial Statements For the fiscal year ended June 30, 2017

Note 1. Summary of Significant Accounting Policies, Continued

C. Measurement Focus and Basis of Accounting, Continued

Receivables: Receivables consist of property taxes levied against Horry County taxpayers. Receivables also include amounts due from the Federal government, State and Local governments or private sources, in connection with reimbursement of allowable expenditures made pursuant to the School District's grants and contracts. Receivables are recorded net of estimated uncollectible amounts.

Allowance for Doubtful Accounts: All receivables that historically experience uncollectible amounts are shown net of an allowance for doubtful accounts. This amount is determined by analyzing the percentage of receivables that were not collected in prior years.

Prepaid and Other: Payments made to vendors for services benefiting future periods are recorded as prepaid items in both government-wide and fund financial statements using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expense/expenditure is reported in the year in which services are consumed.

Inventories: The inventories of the School District's General Fund consist of expendable materials and supplies, which are recorded as expenditures when purchased. These inventories are reported at cost. The General Fund inventories do not reflect current appropriable resources and, thus, an equivalent portion of fund balance is designated as non-spendable. Enterprise Fund inventories consist of food and supplies and are recorded as expenses when consumed. Included within Enterprise Fund inventories, are United States Department of Agriculture (USDA) commodities which were received, but not consumed as of June 30, 2017. Commodities received from the USDA have been recorded at fair market value as provided by the USDA.

Capital Assets: Capital assets are recorded at cost at the date of acquisition or fair market value at the date of donation in the case of gifts. All land is capitalized, regardless of cost. Qualifying improvements that rest in or on the land itself are recorded as depreciable land improvements. Qualifying improvements which are capitalized include major additions and renovations; improvements that add to the usable space; or improvements that extend the useful life of an existing building. The School District capitalized moveable personal property with a unit value in excess of \$5,000 and a useful life in excess of one year. Routine repairs and maintenance are charged to expenses in the year in which the expense is incurred.

Depreciation is computed using the straight-line method over the estimated lives of the assets, generally 15 to 50 years for buildings and improvements and 5 to 15 years for machinery, equipment and vehicles. Depreciation is prorated six months the year the asset is placed in service and in the year of disposition. The School District does not allocate any depreciation expense directly to any program. Land and construction in progress are not depreciated.

Notes to Basic Financial Statements For the fiscal year ended June 30, 2017

Note 1. Summary of Significant Accounting Policies, Continued

C. Measurement Focus and Basis of Accounting, Continued

Unearned Revenues: Unearned revenues in the governmental funds include amounts received from grant and contract sponsors that have not yet been earned. The unearned revenues from grants are considered to be a liability to the School District rather than deferred inflows of resources since the eligibility requirements of the grants have not been met.

Unavailable Revenues: Unavailable revenues arise when assets are recognized before revenue recognition criteria have been satisfied. Delinquent property taxes and property taxes for which there is an enforceable legal claim as of June 30, 2017, but which have not met the revenue recognition criteria, have been recorded as unavailable revenue. On governmental fund financial statements, receivables that will not be collected within the available period have also been reported as unavailable revenue.

Long-Term Obligations: In the government-wide financial statements and proprietary fund types, long-term debt and other long-term obligations are reported as liabilities. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as expense in the period incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Compensated Absences: Employee vacation pay and salary-related expenses are accrued at year end for financial statement purposes. The liability and expense incurred are recorded at year end as compensated absences payable in the government-wide and proprietary fund Statement of Net Position on a FIFO basis and as a component of the appropriate functional category in the Statement of Activities. Employees can earn up to 45 days for subsequent use or payment upon termination, death or retirement. Sick leave benefits are accrued as a liability using the termination payment method. An accrual for earned sick leave is made to the extent that it is probable that the benefits will result in termination payments. The liability is based on the School District's past experience of making termination payments. The portion of time that is estimated to be used in the next fiscal year has been designated as a current liability in the government-wide financial statements. In prior years, the General Fund and/or Proprietary Fund have been used to liquidate the liability for compensated absences.

Deferred Outflows of Resources and Deferred Inflows of Resources: Changes in net pension liability not included in pension expense are reported as deferred outflows of resources or deferred inflows of resources. Employer contributions subsequent to the measurement date of the net pension liability are reported as deferred outflows of resources.

Notes to Basic Financial Statements For the fiscal year ended June 30, 2017

Note 1. Summary of Significant Accounting Policies, Continued

C. Measurement Focus and Basis of Accounting, Continued

Pensions: For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the South Carolina Retirement System (SCRS) and the South Carolina Police Officers Retirement System (PORS) and additions to/deductions from SCRS's and PORS' fiduciary net position have been determined on the same basis as they are reported by SCRS or PORS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Fund Balances and Net Position: The School District has five classifications of governmental fund balances: nonspendable, restricted, committed, assigned and unassigned. Nonspendable fund balance cannot be spent because of its form. Restricted fund balance has limitations imposed by creditors, grantors, or contributors or by enabling legislation or constitutional provisions. Committed fund balance is a balance that can only be used for the specific purpose determined by the Board. The Board, as the School District's highest level of decision making authority, may establish, modify, or rescind a fund balance commitment through formal action taken in open session of a Board meeting. This action must be taken prior to the School District's fiscal year end for that fiscal year. Assigned fund balance is a balance meant to be used for a specific purpose that meets neither the criteria as restricted nor committed and with the assignment made prior to the report issuance date. The intent to assign balances can be expressed by the Board or body to which the Board delegates the authority. Amounts the School District intends to use for a specific purpose and such assignments are made before the report issuance date. The Board of Education allows the School District's Chief Financial Officer the right to make assignments of fund balance for the School District. No formal action to impose, modify, or remove any fund balance assignment is required. Unassigned fund balance in the General Fund is the net resources in excess of what can be properly classified in one of the above four categories. Where applicable, these classifications are presented on the face of the governmental funds Balance Sheet.

The School District's Board of Education passed a resolution whereby a 15% reserve equal to 15% of the current year General Fund expenditures is to remain in Fund Balance at all times to meet cash flow needs based upon the seasonal receipt of local property tax revenues. The amount of \$56,456,057 for this commitment is included in the unassigned fund balance at June 30, 2017.

For the government wide financial statements the School District applies restricted resources when an expense is incurred for the purposes for which both restricted and unrestricted net position is available. For the governmental funds financial statements the School District applies committed, then assigned, then unassigned resources when an expenditure is incurred for purposes for which amounts in any of those unrestricted fund balance classifications could be used.

Net position represents the difference between assets, liabilities, and deferred outflows/inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation and the outstanding balances of any borrowings used for the acquisition, construction or improvement of the unspent proceeds. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislations or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Notes to Basic Financial Statements For the fiscal year ended June 30, 2017

Note 1. Summary of Significant Accounting Policies, Continued

C. Measurement Focus and Basis of Accounting, Continued

Classification of Revenues: The School District has classified its revenues as either operating or non-operating revenues according to the following criteria:

Non-Operating Revenues: Non-operating revenues include activities that have the characteristics of non-exchange transactions. These revenues include gifts and contributions, investment income, and any grants or contracts that are not classified as operating revenue or restricted by the grantor to be used exclusively for other purposes.

Operating Revenues: Operating revenues generally result from exchange transactions related to the School District's principal ongoing operations. These revenues include (1) student tuition and fees received in exchange for providing educational services or (2) grants and contracts that are essentially the same as contracts for services that finance programs the School District would not otherwise undertake. Proprietary funds operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary fund's principal ongoing operations. The principal ongoing revenues of the enterprise fund are charges to students and teachers for breakfast, lunch and special sales. Operating expenses for the enterprise fund include the cost of sales, administrative expenses, and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the School District's financial position and results of operations and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

D. New Accounting Standards

The GASB has issued the following statements:

Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions." This Statement replaces the requirements of Statement 45 and requires governments to report a liability on the face of the financial statements for the OPEB that they provide. Statement 75 requires governments in all types of OPEB plans to present more extensive note disclosures and required supplementary information (RSI) about their OPEB liabilities. Among the new note disclosures is a description of the effect on the reported OPEB liability using a discount rate and a healthcare cost trend rate that are one percentage point higher and one percentage point lower than assumed by the government. The new RSI includes a schedule showing the causes of increases and decreases in the OPEB liability and a schedule comparing a government's actual OPEB contributions to its contribution requirements. The requirements of this Statement are effective for financial statements for reporting periods beginning after June 15, 2017.

Statement No. 77, "Tax Abatement Disclosures." The requirements of this Statement require the disclosure of information about the nature and magnitude of tax abatements. The requirements of this Statement are effective for the current fiscal year.

Notes to Basic Financial Statements For the fiscal year ended June 30, 2017

Note 1. Summary of Significant Accounting Policies, Continued

D. New Accounting Standards, Continued

Other accounting standards that have been issued or proposed by the GASB or other standards-setting bodies are not expected to have a material impact on the District's financial position, changes in net position, or cash flows.

E. Subsequent Events

In preparing these financial statements, the School District's management has evaluated events and transactions for potential recognition or disclosure through November 30, 2017, the date the financial statements were available for issuance.

Note 2. Cash and Cash Equivalents, Other Deposits and Investments

The School District follows Governmental Accounting Standards Board (GASB) Statement No. 40, *Deposit and Investment Risk Disclosures*. The Horry County Treasurer is authorized to invest funds held for the School District, which are not needed for immediate disbursement by the School District, in interest bearing accounts or certificates of deposit issued by banking institutions or savings and loan associations licensed to do business in this state or in securities issued by the United States Government.

Custodial Credit Risk for Deposits: This is the risk that in the event of a bank failure, the School District's deposits may not be returned to it. Deposits of the School District are subject to South Carolina state statutes for custodial credit risk. The statutes provide that banks accepting deposits of funds from local government units must furnish an indemnity bond or pledge as collateral obligations of the United States, South Carolina, political subdivisions of South Carolina, the Federal National Mortgage Association, the Federal Home Loan Bank, the Federal Farm Credit Bank, or the Federal Home Loan Mortgage Corporation. In accordance with the aforementioned statute, the School District's policy requires deposits to be secured by collateral valued at market or par, whichever is lower, less the amount of the Federal Deposit Insurance Corporation (FDIC) insurance. Deposited funds may be invested in demand or time deposits, continuously and fully secured with direct obligations of or obligations guaranteed by the United States of America having a market value not less than the amount of such monies. At June 30, 2017 the carrying amount of the School District's deposits was \$328,764,341 and the bank balance was \$335,938,311. All of these deposits were fully collateralized with securities held by the pledging financial institution's trust department in the School District's name or insured by the Federal Deposit Insurance Corporation.

Interest Rate Risk: Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest rate changes. The School District contracts with a banking institution for a guaranteed interest rate. The School District does not have a formal investment policy that limits investment maturities to reduce its exposure to fair value losses arising from increasing interest rates, but follows the investment policy strategy of the State of South Carolina. Information pertaining to the reported amounts, fair values, maturities, credit risk, interest rate risk and concentration risk is disclosed in the CAFR of the State of South Carolina.

Notes to Basic Financial Statements For the fiscal year ended June 30, 2017

Note 2. Cash and Cash Equivalents, Other Deposits and Investments, Continued

Credit Risk: Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The School District has adopted an investment policy in accordance with state statutes, which authorize the School District to invest in the following:

- 1. Obligations of the United States and agencies thereof;
- 2. General obligations of the State of South Carolina or any of its political units;
- 3. Savings and loan association deposits to the extent insured by the FDIC;
- 4. Certificates of deposit and repurchase agreements collateralized by securities of the type described in (1) and (2) above held by a third party as escrow agent or custodian, of a market value not less than the amount of certificates of deposit and repurchase agreements so secured, including interest; and
- 5. No-load open and closed-end management type investment companies or investment trusts registered under the Investment Company Act of 1940, as amended, where the investment is made by a bank or trust company or savings and loan association or other financial institution when acting as trustee or agent for a bond or other debt issue of that local government unit.

In addition, South Carolina state statutes authorize the School District to invest in the South Carolina Local Government Investment Pool (SCLGIP). The SCLGIP is an investment trust fund created by state legislation, in which public monies under the custody of any political subdivision in excess of current needs may be deposited. The SCLGIP is permitted to purchase obligations of the United States, its agencies and instrumentalities, and any corporation within the United States if such obligations bear any of the three highest ratings of at least two nationally recognized rating services. The SCLGIP is a 2a7-like pool, which is not registered with the Securities and Exchange Commission (SEC) as an investment company, but has a policy that it will operate in a manner consistent with the SEC's rule 2a7 of the Investment Company Act of 1940. The fair value of the School District's position in the SCLGIP approximates the same value of the School District's LGIP shares. The SCLGIP is not rated. The SCLGIP's complete financial statements may be obtained by writing the Office of the State Treasurer, Local Government Investment Pool, Post Office Box 11778, Columbia, South Carolina 29211.

Fair Value of Financial Instruments: The School District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

Amounts on deposit with the Horry County Treasurer are not categorized since they cannot be identified by securities that exist in physical or book entry form. These amounts are subject to the same investment authorizations as the District under state law. The carrying values of these investments approximate fair values. The Horry County Treasurer is responsible for maintaining these investments in accordance with state laws.

Notes to Basic Financial Statements For the fiscal year ended June 30, 2017

Note 3. Tax Abatement (GASB 77)

The School District does not negotiate or enter into an agreement for tax abatements. The School District is subject to any tax abatement agreements entered by Horry County. Horry County provides tax abatement incentives through three programs to encourage economic development, attract new businesses, and retain existing businesses - Fee in Lieu of Tax, Special Source Revenue Credits, and Multi-County Business Parks:

- A Fee in Lieu of Tax ("FILOT") is authorized under South Carolina Code Title 12, Chapter 44, Title 4, Chapter 29, or Title 4, Chapter 12. The FILOT is used to encourage investment and provides a reduction of property tax when a business invests a minimum of \$2,500,000 within a 5-6 year investment period (beginning with date property is placed in service, ending five years after the last day of the property tax year in which the property is initially placed in service). The reduction in property taxes is accomplished by a reduction of assessed value, reduction in millage rate and elimination of (or reduction in) number of times millage rates are changed. In addition, an agreement may allow the possible use of net present value method over term of FILOT to equalize payments. Repayment of incentive is required by state law if taxpayer fails to meet statutory minimum investment requirement. Other recapture provisions may be negotiated (such as a pro rata clawback for failure to meet and/or maintain jobs/investment).
- A Special Source Revenue Credit ("SSRC") is authorized under South Carolina Code Sections 4-29-68, 4-1-170, and 12-44-70. The SSRC is used to encourage investment and provides a credit against property taxes in the form of a percentage reduction or a dollar amount reduction. County manually applies SSRC to reduce applicable property tax bill. To receive the credit, a business must incur costs of designing, acquiring, constructing, improving, or expanding improved or unimproved real estate or personal property used in the operation of a manufacturing or commercial enterprise, infrastructure servicing the project, or certain aircraft.

For the fiscal year ended June 30, 2017, the County abated School District property tax revenues of \$493,414 under agreements entered into by the County. The table below summarizes the tax abatements by program:

	AC	<u>atement</u>
<u>Tax Abatement Program</u>		
Fee in lieu of tax ("FILOT")	\$	463,936
Special Source Revenue Credit ("SSRC")		29,478
Total	\$	493,414

The School District has chosen to disclose information about some of its tax abatement agreements individually. It established a quantitative threshold of 10 percent of the total dollar amount of taxes abated during the year.

- A FILOT agreement with a manufacturer for expansion of their existing facility located in the City of Myrtle Beach. This agreement was completed in 1999. The abatement amounted to \$179,287.
- A FILOT agreement with a manufacturer for expansion of their existing facility located in the Atlantic Center Industrial Park. This agreement was completed in 2009. The abatement amounted to \$90,965.
- A FILOT agreement with a forest product manufacturer for expansion of their existing facility located in unincorporated area of Horry County. This agreement was completed in 2003. The abatement amounted to \$69,343.

The School District has not made any commitments as part of the agreements other than to reduce property taxes.

Notes to Basic Financial Statements For the fiscal year ended June 30, 2017

Note 4. Property Taxes

The Horry County Treasurer collects Horry County property taxes for the School District. Taxes are levied on October 1st of each year. They are due and payable without penalty until January 15th. If unpaid on March 16th of the following year, they attach as an enforceable lien on the property at that time. Vehicle taxes are levied on a monthly basis in accordance with guidelines established by the State of South Carolina. Vehicle taxes must be paid prior to the time the vehicle license is renewed.

Property taxes levied but uncollected are recorded as receivables reduced by an allowance for uncollectible amounts. Taxes receivable not collected within 60 days after year-end are recorded as unavailable revenue in the governmental fund financial statements since they are not available to meet current obligations at the end of the year. On the government-wide financial statements, taxes receivable not collected within 60 days after year-end are not deferred.

A summary of property taxes receivable as of June 30, 2017 is as follows:

Total property taxes uncollected	\$ 39,189,207
Less allowance for doubtful accounts	<u>(15,675,684</u>)
Net property taxes receivable in the Statement of Net Position	23,513,523
Less collections made within 60 days of year end	(978,823)
Total deferred inflows of resources included in the Governmental	
Funds Balance Sheet	<u>\$ 22,534,700</u>

Notes to Basic Financial Statements For the fiscal year ended June 30, 2017

					\$	444,560,000

Notes to Basic Financial Statements For the fiscal year ended June 30, 2017

Note 6. Long-Term Liabilities, Continued

Constitutionally, the School District is limited in the amount of debt it can hold to 8% of the assessed value of all taxable property within the School District. This constitutional debt limit does not include any debt existing prior to November 30, 1982, or any special obligation debt or debt approved by referendum. At June 30, 2017, the only debt applicable to the debt limitation is related to the Series 2016A issue of \$125,000,000. Based on Horry County's assessed property tax values, the School District is within its debt limit of approximately \$174,000,000 at June 30, 2017.

General obligation bonds of the School District are backed by the full faith, credit, and taxing power of the School District.

The scheduled maturities of the general obligation bonds payable are as follows:

		Principal	 Interest	 Total
2018	\$	17,815,000	\$ 20,831,600	\$ 38,646,600
2019		42,895,000	19,973,950	62,868,950
2020		45,070,000	17,863,950	62,933,950
2021		47,375,000	15,615,500	62,990,500
2022		46,130,000	13,257,350	59,387,350
2023-2027		187,220,000	32,364,300	219,584,300
2028-2031		58,055,000	 5,533,200	63,588,200
Totals	<u>\$</u>	444,560,000	\$ 125,439,850	\$ 569,999,850

Note 7. Inter-Fund Balances and Activity

Transactions between funds that are representative of reimbursement arrangements outstanding at the end of the fiscal year are referred to as "Due From and Due To" on the Governmental Funds Balance Sheet. There were no interfund balances at June 30, 2017.

Inter-fund transfers for the year ended June 30, 2017, consist of the following:

	_]	Transfers In	<u>Tr</u>	ransfers Out
General	\$	11,341,055	\$	759,573
Special Projects		45,902		1,164,540
Education Improvement Act		-		8,903,812
Capital Projects		43,600,000		-
Debt Service		-		43,600,000
School Food Service	_	713,671	_	1,272,703
	\$	55,700,628	\$	55,700,628

Notes to Basic Financial Statements For the fiscal year ended June 30, 2017

Note 8. Fund Balances and Net Position

The fund balances/net position have been classified to reflect the limitations and restrictions placed on the respective funds as follows:

Governmental fund financial statements

<u>Fund balance - Non-spendable</u> - Amounts that are not in a spendable form or are required to remain intact.

<u>Fund balances - Restricted - Amounts constrained to a specific purpose by their providers (such as grants, bondholders and higher levels of government) through constitutional provisions or enabling legislation.</u>

<u>Fund balances - Committed</u> - Amounts constrained to specific purpose by the School District through formal action made by the highest level of decision-making authority before the end of the reporting period. This action requires approval by majority vote of the Board of Education. The committed amounts cannot be used for any other purpose unless the School District removes or changes the specified use by taking the same type of action it employed to previously commit the amounts.

<u>Fund balances - Assigned</u> - Amounts the School District intends to use for a specific purpose and such assignments are made before the report issuance date. The Board of Education allows the School District's Chief Financial Officer the right to make assignments of fund balance for the School District.

<u>Fund balances - Unassigned</u> - Amounts that are available for any purpose; positive amounts are reported only in the General Fund.

Government-wide and proprietary fund financial statements

<u>Net investment in capital assets</u> - This represents the School District's total investments in capital assets, net of outstanding debt obligations related to those capital assets. To the extent debt has been incurred but not yet expended for capital assets, such amounts are not included as a component of invested in capital assets, net of related debt. Details of net investment in capital assets are:

	Governmental <u>Activities</u>		Business-Type Activities		
Capital assets, net of depreciation	\$	839,296,562	\$	1,805,947	
Capital-related debt:					
Less: bonds, notes and loans		(444,560,000)		-	
Less: premiums and discounts		(67,597,117)		-	
Add: deferred charges on bond refundings		12,517,789		-	
Less: accounts and retainages payable		(24,254,709)		-	
Add: unspent debt proceeds*		<u> </u>		<u>-</u>	
Net investment in capital assets	\$	315,402,525	\$	1,805,947	

^{*}All cash in the capital projects fund at 6/30/17 is related to the 1% sales tax and, thus, is appropriately excluded from the calculation of net investment in capital assets above.

Notes to Basic Financial Statements For the fiscal year ended June 30, 2017

Note 8. Fund Balances and Net Position, Continued

Government-wide and proprietary fund financial statements, continued

<u>Restricted net position (expendable)</u> - Restricted expendable net position includes resources in which the School District is legally or contractually obligated to spend resources in accordance with restrictions imposed by third parties.

<u>Restricted net position (non-expendable)</u> - Non-expendable restricted net position consist of funds in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to principal.

<u>Unrestricted net position</u> - Unrestricted net position represent resources derived from ad valorem taxes, earnings on investments, and various local and state unrestricted grants, contracts and revenues.

	General <u>Fund</u>	Special Revenue <u>Funds</u>	Debt Service <u>Fund</u>	Capital Projects <u>Fund</u>	Total
Nonspendable:

Note 9. Pension Plans

The majority of employees of the School District are covered by a retirement plan through the South Carolina Retirement System (SCRS), a cost-sharing multiple-employer defined benefit pension plan administered by the Retirement Division, a public employee retirement system. Generally, all State employees are required to participate in and contribute to the SCRS as a condition of employment unless exempted by law as provided in Section 9-1-480 of the South Carolina Code of Laws. This plan provides retirement annuity benefits as well as disability, cost of living adjustment, death, and group life insurance benefits to eligible employees and retirees.

Notes to Basic Financial Statements For the fiscal year ended June 30, 2017

Note 9. Pension Plans, Continued

Description of the Entity: The South Carolina Public Employee Benefit Authority (PEBA), which was created July 1, 2012, administers the various retirement systems and retirement programs managed by its Retirement Division. PEBA has an 11-member Board of Directors, appointed by the Governor and General Assembly leadership, which serves as co-trustee and co-fiduciary of the systems and the trust funds. By law, the State Fiscal Accountability Authority (SFAA), which consists of five elected officials, also reviews certain PEBA Board decisions regarding the funding of the South Carolina Retirement Systems (Systems) and serves as a co-trustee of the Systems in conducting that review.

For purposes of measuring the net pension liability, deferred outflows and inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Systems and additions to/deductions from the Systems fiduciary net position have been determined on the accrual basis of accounting as they are reported by the Systems in accordance with generally accepted accounting principles (GAAP). For this purpose, revenues are recognized when earned and expenses are recognized when incurred. Benefit and refund expenses are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value.

PEBA issues a Comprehensive Annual Financial Report (CAFR) containing financial statements and required supplementary information for the Systems' Pension Trust Funds. The CAFR is publicly available through the Retirement Benefits' link on PEBA's website at www.peba.sc.gov, or a copy may be obtained by submitting a request to PEBA, 202 Arbor Lake Drive, Columbia, SC 29223. PEBA is considered a division of the primary government of the state of South Carolina and therefore, retirement trust fund financial information is also included in the comprehensive annual financial report of the state.

Plan Descriptions: The South Carolina Retirement System (SCRS), a cost-sharing multiple employer defined benefit pension plan, was established effective July 1, 1945, pursuant to the provisions of Section 9-1-20 of the South Carolina Code of Laws for the purpose of providing retirement allowances and other benefits for employees of the state, its public school districts, and political subdivisions.

Employees eligible for service retirement may participate in the Teacher and Employee Retention Incentive Program (TERI). TERI participants may retire and begin accumulating retirement benefits on a deferred basis without terminating employment for up to five years. Upon termination of employment or at the end of the TERI period, whichever is earlier, participants will begin receiving monthly service retirement benefits which will include any cost of living adjustments granted during the TERI period. TERI participants with retirement dates on or after July 1, 2005, make the same pre-tax contributions to the SCRS as active members. In addition, they are eligible to receive group life insurance benefits, but are ineligible to receive service credit or disability retirement benefits. The TERI program will be closed effective June 30, 2018; therefore, only those participants that enter the program beginning July 1, 2013 will be eligible to participate in the program for five full years.

The State Optional Retirement Program (State ORP) is a defined contribution plan that is offered as an alternative to SCRS to certain newly hired state, public school, and higher education employees. State ORP participants direct the investment of their funds into a plan administered by one of four investment providers.

Notes to Basic Financial Statements For the fiscal year ended June 30, 2017

Note 9. Pension Plans, Continued

The South Carolina Police Officers Retirement System (PORS), a cost-sharing multiple-employer defined benefit pension plan, was established effective July 1, 1962, pursuant to the provisions of Section 9-11-20 of the South Carolina Code of Laws for the purpose of providing retirement allowances and other benefits for police officers and firemen of the state and its political subdivisions.

Membership: Membership requirements are prescribed in Title 9 of the South Carolina Code of Laws. A brief summary of the requirements under each system is presented below.

- SCRS Generally, all employees of covered employers are required to participate in and contribute to the system as a condition of employment. This plan covers general employees and teachers and individuals newly elected to the South Carolina General Assembly beginning with the November 2012 general election. An employee member of the system with an effective date of membership prior to July 1, 2012, is a Class Two member. An employee member of the system with an effective date of membership on or after July 1, 2012, is a Class Three member.
- State ORP As an alternative to membership in SCRS, newly hired state, public school, and higher education employees and individuals newly elected to the S.C. General Assembly beginning with the November 2012 general election have the option to participate in the State Optional Retirement Program (State ORP), which is a defined contribution plan. State ORP participants direct the investment of their funds into a plan administered by one of four investment providers. PEBA assumes no liability for State ORP benefits. Rather, the benefits are the liability of the investment providers. For this reason, State ORP programs are not part of the retirement systems' trust funds for financial statement purposes. Employee and Employer contributions to the State ORP are at the same rates as SCRS. A direct remittance is required from the employers to the member's account with investment providers for the employee contribution and a portion of the employer contribution (5 percent). A direct remittance is also required to SCRS for the remaining portion of the employer contribution and an incidental death benefit contribution, if applicable, which is retained by SCRS.
- PORS To be eligible for PORS membership, an employee must be required by the terms of his employment, by election or appointment, to preserve public order, protect life and property, and detect crimes in the state; to prevent and control property destruction by fire; or to serve as a peace officer employed by the Department of Corrections, the Department of Juvenile Justice, or the Department of Mental Health. Probate judges and coroners may elect membership in PORS. Magistrates are required to participate in PORS for service as a magistrate. PORS members, other than magistrates and probate judges, must also earn at least \$2,000 per year and devote at least 1,600 hours per year to this work, unless exempted by state statute. An employee member of the system with an effective date of membership prior to July 1, 2012, is a Class Two member. An employee member of the system with an effective date of membership on or after July 1, 2012, is a Class Three member.

Notes to Basic Financial Statements For the fiscal year ended June 30, 2017

Note 9. Pension Plans, Continued

Benefits Provided: Benefit terms are prescribed in Title 9 of the South Carolina Code of Laws. PEBA does not have the authority to establish or amend benefit terms without legislative change in the code of laws. Key elements of the benefit calculation include the benefit multiplier, years of service, and average final compensation. A brief summary of benefit terms for each system is presented below.

• SCRS - A Class Two member who has separated from service with at least five or more years of earned service is eligible for a monthly pension at age 65 or with 28 years credited service regardless of age. A member may elect early retirement with reduced pension benefits payable at age 55 with 25 years of service credit. A Class Three member who has separated from service with at least eight or more years of earned service is eligible for a monthly pension upon satisfying the Rule of 90 requirement that the total of the member's age and the member's creditable service equals at least 90 years. Both Class Two and Class Three members are eligible to receive a reduced deferred annuity at age 60 if they satisfy the five-or eight-year earned service requirement, respectively. An incidental death benefit is also available to beneficiaries of active and retired members of employers who participate in the death benefit program.

The annual retirement allowance of eligible retirees or their surviving annuitants is increased by the lesser of one percent or five hundred dollars every July 1. Only those annuitants in receipt of a benefit on July 1 of the preceding year are eligible to receive the increase. Members who retire under the early retirement provisions at age 55 with 25 years of service are not eligible for the benefit adjustment until the second July 1 after reaching age 60 or the second July 1 after the date they would have had 28 years of service credit had they not retired.

• PORS - A Class Two member who has separated from service with at least five or more years of earned service is eligible for a monthly pension at age 55 or with 25 years of service regardless of age. A Class Three member who has separated from service with at least eight or more years of earned service is eligible for a monthly pension at age 55 or with 27 years of service regardless of age. Both Class Two and Class Three members are eligible to receive a deferred annuity at age 55 with five or eight years of earned service, respectively. An incidental death benefit is also available to beneficiaries of active and retired members of employers who participate in the death benefit program. Accidental death benefits are also provided upon the death of an active member working for a covered employer whose death was a natural and proximate result of an injury incurred while in the performance of duty.

The retirement allowance of eligible retirees or their surviving annuitants is increased by the lesser of one percent or five hundred dollars every July 1. Only those annuitants in receipt of a benefit on July 1 of the preceding year are eligible to receive the increase.

Contributions: Contributions are prescribed in Title 9 of the South Carolina Code of Laws. Upon recommendation by the actuary in the annual actuarial valuation, the PEBA Board may adopt and present to the SFAA for approval an increase in the SCRS and PORS employer and employee contribution rates, but any such increase may not result in a differential between the employee and total employer contribution rate that exceeds 2.9 percent of earnable compensation for SCRS and 5 percent for PORS. An increase in the contribution rates adopted by the Board may not provide for an increase of more than one-half of one percent in any one year. If the scheduled employee and employer contributions provided in statute or the rates last adopted by the Board are insufficient to maintain a thirty year amortization schedule of the unfunded liabilities of the plans, the Board shall increase the contribution rates in equal percentage amounts for the employer and employee as necessary to maintain the thirty-year amortization period; and, this increase is not limited to one-half of one percent per year.

Notes to Basic Financial Statements For the fiscal year ended June 30, 2017

Note 9. Pension Plans, Continued

Contributions (continued)

Required <u>employee</u> contribution rates¹ are as follows:

Employer Incidental Death Benefit	0.20%	0.20%
Employer Accidental Death Program	0.20%	0.20%

¹Calculated on earnable compensation as defined in Title 9 of the South Carolina Code of Laws.

Actuarial Assumptions and Methods: Actuarial valuations involve estimates of the reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and future salary increases. Actuarial assumptions and methods used during the annual valuation process are subject to periodic revision, typically with an experience study, as actual results over an extended period of time are compared with past expectations and new estimates are made about the future.

²Of this employer contribution, 5% of earnable compensation must be remitted by the employer directly to the ORP vendor to be allocated to the member's account with the remainder of the employer contribution remitted to the SCRS.

Notes to Basic Financial Statements For the fiscal year ended June 30, 2017

Note 9. Pension Plans, Continued

South Carolina state statute requires that an actuarial experience study be completed at least once in each five-year period. An experience report on the Systems was most recently issued as of July 1, 2015. The June 30, 2016, total pension liability, net pension liability, and sensitivity information were determined by the Systems consulting actuary, Gabriel, Roeder, Smith and Company (GRS) and are based on the July 1, 2015, actuarial valuations, as adopted by the PEBA Board and SFAA which utilized membership data as of July 1, 2015. The total pension liability was rolled-forward from the valuation date to the Systems' fiscal year ended June 30, 2016, using generally accepted actuarial principles. Information included in the following schedules is based on the certification provided by GRS.

The following provides a summary of the actuarial assumptions and methods used in the July 1, 2015, valuations for SCRS and PORS.

	SCRS	PORS
Actuarial Cost Method	Entry age normal	Entry age normal
Actuarial Assumptions:		
Investment rate of return	7.5%	7.5%
Projected salary increases	3.5% to 12.5% (varies by service)	4.0% to 10.0% (varies by service)
Includes inflation at	2.75%	2.75%
Benefits adjustments	Lesser of 1% or \$500 annually	Lesser of 1% or \$500 annually

The post-retiree mortality assumption is dependent upon the member's job category and gender. This assumption includes base rates which are automatically adjusted for future improvement in mortality using published Scale AA projected from the year 2000. Assumptions used in the July 1, 2015 valuations for SCRS and PORS are as follows.

Former Job Class	Males	Females
	RP-2000 Males (with White Collar	RP-2000 Females (with White Collar
Educators	adjustment) multiplied by 110%	adjustment) multiplied by 95%
General Employees and	RP-2000 Males multiplied by 100%	RP-2000 Females multiplied by 90%
Members of the General		
Assembly		
Public Safety and Firefighters	RP-2000 Males (with Blue Collar	RP-2000 Females (with Blue Collar
	adjustment) multiplied by 115%	adjustment) multiplied by 115%

Net Pension Liability: The net pension liability (NPL) is calculated separately for each system and represents that particular system's total pension liability determined in accordance with GASB No. 67 less that System's fiduciary net position. NPL totals, as of June 30, 2016, for SCRS and PORS are presented below.

	Total	Plan	Employers'	Plan Fiduciary
	Pension	Fiduciary Net	Net Pension	Net Position as a Percentage
System	Liability	Position	Liability (Asset)	of the Total Pension Liability
SCRS	\$ 45,356,214,752	\$23,996,362,354	\$ 21,359,852,398	52.9%
PORS	6,412,510,458	3,876,035,732	2,536,474,726	60.4%

Notes to Basic Financial Statements For the fiscal year ended June 30, 2017

Note 9. Pension Plans, Continued

The total pension liability is calculated by the Systems' actuary, and each plan's fiduciary net position is reported in the Systems' financial statements. The net pension liability is disclosed in accordance with the requirements of GASB 67 in the Systems' notes to the financial statements and required supplementary information. Liability calculations performed by the Systems' actuary for the purpose of satisfying the requirements of GASB Nos. 67 and 68 are not applicable for other purposes, such as determining the plans' funding requirements.

Long-term Expected Rate of Return: The long-term expected rate of return on pension plan investments, as used in the July 1, 2015, actuarial valuations, was based upon the 30 year capital markets outlook at the end of third quarter 2015. The long-term expected rate of returns represent assumptions developed using an arithmetic building block approach primarily based on consensus expectations and market based inputs. Expected returns are net of investment fees.

The expected returns, along with the expected inflation rate, form the basis for the revised target asset allocation adopted beginning January 1, 2016. The long-term expected rate of return is produced by weighting the expected future real rates of return by the target allocation percentage and adding expected inflation and is summarized in the table below. For actuarial purposes, the 7.85 percent assumed annual investment rate of return used in the calculation of the total pension liability includes a 5.10 percent real rate of return and a 2.75 percent inflation component.

Long Tarm

			Long Term
		Expected	Expected
	Target Asset	Arithmetic Real	Portfolio Real
Asset Class	Allocation	Rate of Return	Rate of Return
Global Equity	43.00%		
Global Public Equity	34.00%	6.52%	2.22%
Private Equity	9.00%	9.30%	0.84%
Real Assets	8.00%		
Real Estate	5.00%	4.32%	0.22%
Commodities	3.00%	4.53%	0.13%
Opportunistic	20.00%		
GTAA/Risk Parity	10.00%	3.90%	0.39%
HF (Low Beta)	10.00%	3.87%	0.39%

Inflation for Actuarial Purposes			2.75%
Total Expected Nominal Return			7.85%

Notes to Basic Financial Statements For the fiscal year ended June 30, 2017

Note 9. Pension Plans, Continued

Discount Rate: The discount rate used to measure the total pension liability was 7.50 percent. The projection of cash flows used to determine the discount rate assumed that the funding policy specified in the South Carolina State Code of Laws will remain unchanged in future years. Based on those assumptions, each System's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity Analysis: The following presents the School District's proportionate share of the net pension liability calculated using the discount rate of 7.50 percent, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1.00 percent lower (6.50 percent) or 1.00 percent higher (8.50 percent) than the current rate.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate									
System				00% Increase (8.50%)					
SCRS	\$	672,118,438	\$	538,784,122	\$	427,788,326			
PORS	\$	649,130	\$	495,298	\$	357,050			

Additional Financial and Actuarial Information: Detailed information regarding the fiduciary net position of the plans administered by PEBA is available in the Systems' audited financial statements for the fiscal year ended June 30, 2016 (including the unmodified audit opinion on the financial statements). Additional actuarial information is available in the accounting and financial reporting actuarial valuation as of June 30, 2016.

For the year ended June 30, 2017, the School District recognized total pension expense of \$46,338,948, including \$45,024,089 for SCRS and \$50,794 for PORS under governmental activities and \$1,264,065 for SCRS under business-type activities. At June 30, 2017, the School District reported total deferred outflows of resources and deferred inflows of resources related to pensions for both governmental and business-type activities from the following sources:

SCRS

	3CN3			
		Deferred outflows fresources	Deferred inflows of resources	
Differences between expected and actual experience	\$	5,585,130	\$	585,121
Net difference between projected and actual				
earnings on pension plan investments		45,329,055		-
Changes in proportion and differences between employer				
contributions and proportionate share of contributions		906,630		4,268,528
District contributions subsequent to the				
measurement date*		29,136,600		-
Total	\$	80,957,415	\$	4,853,649

Notes to Basic Financial Statements For the fiscal year ended June 30, 2017

Note 9. Pension Plans, Continued

	PORS			
	Deferred outflows of resources		Deferred inflows of resources	
Differences between expected and actual experience Net difference between projected and actual	\$	7,349	\$	-
earnings on pension plan investments Changes in proportion and differences between employer		56,163		-
contributions and proportionate share of contributions		1,303		8,569
District contributions subsequent to the				
measurement date*		<u>34,393</u>		
Total	\$	99,208	\$	8,569

^{*} Amount reported as deferred outflows of resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the next fiscal year.

Future amortization:

	SCRS	 PORS
2018	\$ 10,812,598	\$ 11,591
2019	7,893,215	11,218

2021	10,226,758	 13,051
	\$ 46,967,166	\$ 56,246

Note 10. Post-Employment and Other Employee Benefits

In accordance with the South Carolina Code of Laws and the Annual Appropriations Act, the State of South Carolina provides certain health care, dental, and life insurance benefits to certain active and retired State employees and certain surviving dependents of retirees. All permanent full-time and certain permanent part-time employees of the School District are eligible to receive these benefits. The State provides post-employment health and dental benefits to employees who retire from State service or who terminated with at least twenty years of service. They must meet one or more of the eligibility requirements: age, length of service or hire date. Generally, those who retire must have at least ten years of retirement service credit to qualify for these state-funded benefits. Benefits are effective at date of retirement when the employee is eligible for retirement benefits.

The benefits are provided through annual State appropriations by the General Assembly to the School District for its active employees and to the South Carolina Public Employee Benefit Authority for all participating State retirees except for portions funded through the pension surcharge and provided from other fund sources of the School District for its active employees who are not funded by the State General Fund appropriations. The State finances health and dental plan benefits on a pay-as-you-go basis.

Notes to Basic Financial Statements For the fiscal year ended June 30, 2017

Note 10. Post-Employment and Other Employee Benefits, Continued

As discussed in Note 9, the School District paid \$12,533,274 applicable to the 5.00% surcharge included with the employer contributions for retirement benefits. These amounts were remitted to the South Carolina Retirement Systems for distribution to the Offices of Insurance Services for retiree health and dental insurance benefits.

Information regarding the cost of insurance benefits applicable to the School District's retirees is not available. By State law, the School District has no liability for retirement benefits. Accordingly, the cost of providing these benefits for retirees is not included in the accompanying financial statements.

Note 11. Funding Flexibility

The State of South Carolina passed a Joint Resolution to provide funding flexibility for the fiscal year ended June 30, 2017. Under the resolution, school districts may transfer revenue between programs to any instructional program with the same funding source and may make expenditures for instructional programs and essential operating costs from any state source without regard to fund type except school building bond funds. Certain funds and other exceptions apply. The School District used this flexibility for the current fiscal year by making certain transfers allowed under the Joint Resolution. The impact of applying funding flexibility to the School District's General Fund was not measured.

Note 12. Risk Management

The School District is exposed to various risks of loss and maintains State and other insurance coverage for each of these risks. Management believes such coverage is sufficient to preclude any significant uninsured losses for the covered risks. Settlement claims have not exceeded this coverage in any of the past three years.

The School District believes it is more economical to manage its workers' compensation claims through the South Carolina School Boards Insurance Trust/Workers Compensation Trust Fund (SCSBIT/WCTF), a public entity risk pool comprised of member school districts in the State of South Carolina. This entity is operating as a common risk management and insurance program. The School District pays an annual premium to SCSBIT/WCTF for its workers' compensation insurance coverage based upon the total payroll of the School District for each plan year. The Agreement for Formation of the SCSBIT/WCTF provides that the SCSBIT/WCTF will be self-sustaining through member premiums and deficiencies can be charged back to the member districts in the event a fund deficit arises. Insurance settlements have not exceeded insurance coverage for the past three years.

The School District obtains coverage for its property and casualty insurance through the South Carolina Insurance Reserve Fund. There have been no significant reductions in insurance coverage over the prior years.

Note 13. Commitments and Contingencies

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount of expenditures, which may be disallowed by the grantor cannot be determined at this time although the District expects such amounts, if any, to be immaterial.

Notes to Basic Financial Statements For the fiscal year ended June 30, 2017

Note 13. Commitments and Contingencies, Continued

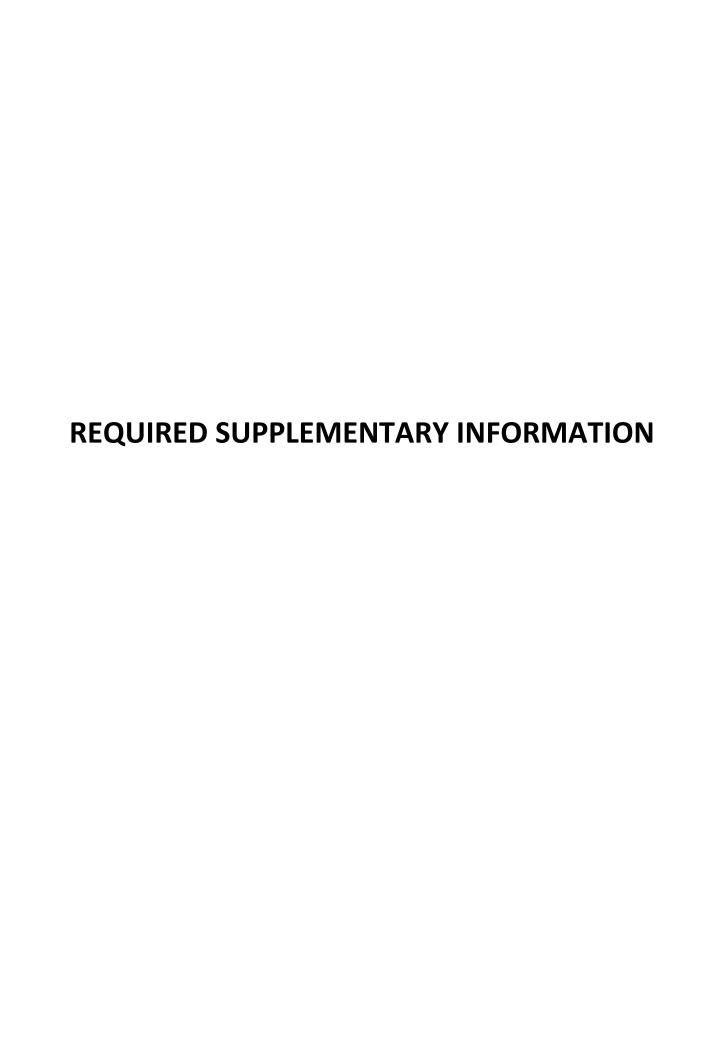

The District is a defendant in several routine tort and personnel dismissal claims. All of the claims are covered by insurance. Management believes that none of the claims will result in any material loss to the District.

The District has entered into leases for office equipment for several schools which are generally cancelable within one year that the District has elected to treat as operating leases.

The District has entered into contracts and agreements with contractors and builders for various capital projects throughout the District including, but not limited to the following: flooring and painting improvements, HVAC enhancements, and the construction/renovation of facilities. The outstanding contract balance is included in restricted fund balance for contracts in the capital projects fund.

Several capital projects are in process at June 30, 2017. A summary of the contracts in process by location is as follows:

	Contract <u>Amount</u>	Expended as of June 30, 2017	Remaining Commitment
St. James Intermediate School	\$ 46,694,043	\$ 42,163,928	\$ 4,530,115

Footnote: This schedule is presented to illustrate the requirement to show information for ten years. However, until a full ten year trend is compiled, the School District will present information for which information is available.

GENERAL FUND

The General Fund is used to account for all financial resources except those required to be accounted for in another fund. All property taxes, intergovernmental revenues, and miscellaneous revenues are recorded in this fund except amounts which are specifically collected to service debt or for which the School District collects in a fiduciary capacity. Operational expenditures for general education, support services and other departments of the School District are paid through the General Fund.

Comparative Balance Sheets - General Fund As of June 30, 2017 and 2016

SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for revenues and expenditures derived from the State of South Carolina and the Federal Government, certain of which require matching funds from local sources, required to finance particular activities.

During 1984, the South Carolina State Legislature passed the Education Improvement Act (EIA) to upgrade the quality of education in South Carolina. Because of the categorical nature of the funding, the State requires that revenues and expenditures be accounted for in a separate fund. Accordingly, the EIA Fund is reported as a Special Revenue Fund.

Comparative Balance Sheets - Special Projects As of June 30, 2017 and 2016

Fund balance, end of year		\$ 116,782,970	

PROPRIETARY FUND TYPE

The Proprietary Fund is used to account for operations that are financed and operated in a manner similar to private businesses. The Food Service Fund is the School District's only Proprietary Fund and is used to account for the USDA's approved school breakfast and lunch programs.

Comparative Schedule of Net Position - Proprietary Fund - School Food Service As of June 30, 2017 and 2016

FIDUCIARY FUND TYPES

Agency Funds

The Pupil Activity Fund is used to account for receipts and disbursements of monies from various student activity organizations. These organizations exist at the explicit approval, subject to revocation, of the School District's governing body. Since the Agency Fund is custodial, no fund balance exists.

The Federal Program Fund is used to account for unemployment benefits to claimants. To be a claimant, an individual must have been employed in the School District by a federal program, involved in this reserve fund.

Private Purpose Trust Funds

The Green Sea-Floyd's Endowment Principal Fund is used to account for monies provided by a private donor. The fund was established in 1994. The expendable portion of the fund is used for college scholarships.

The Scholarship Endowment Trust Fund is used to account for contributions from local businesses for the purpose of providing scholarships for the winning participants in the annual District Academic Olympics competition.

Net Change in Fund Balance - Governmental Funds	\$	174,777	\$	(93,579)	\$ (55,369)	\$ (33,721)	\$ (7,892)
Amounts reported for governmental activities in the Statement of Activities are different because of the following:							
Capital outlays are reported in governmental funds as expenditures. However, in the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which		(121.012)		C E21 201	E7 727	(22.012)	6 425 102
capital outlays exceeds depreciation expense in the period.		(121,013)		6,521,291	57,737	(22,913)	6,435,102
In the Statement of Activities, only the gain or loss on the sale of capital assets is reported, whereas in the governmental funds, the proceeds from the sale/disposal increase financial resources. Thus, the change in net position differs from the change in fund				(750)	205		(445)
balance by the net book value of capital assets sold or disposed.		-		(750)	305	-	(445)
Proceeds from the issuance of notes payable are treated as revenue in the governmental funds but the proceeds increase long-term liabilities in the Statement of Activities. These proceeds have been reduced by principal payments made against the outstanding				(5.701.015)			(5.701.045)
debt.		-		(6,794,946)	-	-	(6,794,946)
Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the Statement of Activities, however, interest expense is recognized as it accrues, regardless of when it is due. Accrued interest increased by this							
amount during the year.		-		-	-	(1,338)	(1,338)
Payments on debt is treated as an expenditure in the governmental funds but the proceeds increase long-term liabilities in the Statement of Activities.		42,854		-	-	34,756	77,610
Principal payments made against outstanding capital leases are treated as expenditures in the governmental funds, but payments decrease long-term liabilities in the Statement of Activities.		-		-	(92,940)	-	(92,940)
Contributions to the pension plan in the current fiscal year are not included on the Statement of Activities		76,910		116,943	92,200	-	286,053
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.		(05.225)		(227.225)	(200 27-)		/500 04 · ·
School's portion of pension expense		(86,296)		(207,339)	(389,376)		(683,011)

Notes: Modified accrual basis of accounting.

The District implemented GASB Statement 54 beginning July 1, 2010. As a result, this table presents new fund balance terminology information beginning with the fiscal year end June 30, 2011.

^{**} The 2011 - 2015 fund balances for the General Fund and all other Governmental Funds are reported based on the requirements under GASBS 54.

The fund balances for years ended 2008-2010 are not reported under GASBS 54.

Horry County Schools Computation of Direct and Overlapping Debt June 30, 2017 (Dollars in thousands)

Government	al General Outstanding	Percentage Applicable to School District*	School District's Share of Debt			
Entity:						
Horry County Schools	\$ 512,157	100%	\$	512,157		
Direct Debt	 512,157			512,157		
Horry County Government	208,681	100%		208,681		
City of Myrtle Beach	178,229	100%		178,229		
City of Conway	7,205	100%		7,205		
City of North Myrtle Beach	5,255	100%		5,255		
City of Loris	535	100%		535		
Town of Surfside Beach	311	100%		311		
Total Overlapping Debt	 400,216			400,216		
Total Direct and Overlapping Debt			\$	912,373		

Note: Net Debt Outstanding is all general obligation long-term debt (excluding compensation for future absences, revenue bonds, and other "user fee" bonds).

Debt outstanding includes capital leases for all entities.

Debt outstanding includes the net of unamortized premiums, discounts, and bond issuance costs.

Source(s): Finance Department of each entity

^{*}Overlapping governments are those that coincide with the geographic boundaries of the County. The overlapping portion is calculated to be 100% since Horry County Schools is the only school district located within the geographic boundaries. This percentage represents the portion of burden the outstanding debt of those overlapping governments place on residents and businesses in Horry County. This process recognizes that when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account.

Notes to Schedule of Expenditures of Federal Awards June 30, 2017

I. Basis of Presentation

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal award activity of the School District under programs of the federal government for the year ended June 30, 2017. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the School District, it is not intended to and does not present the financial position, changes in net assets, or cash flows of the School District.

II. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting as applicable to governmental funds, except for the expenditure of programs under CFDA Numbers 10.553, 10.555, 10.559, and 10.579, which are reported under the full accrual basis of accounting as applicable to enterprise funds. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. The School district has not elected to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With Government Auditing Standards

To the Board of Education Horry County Schools Conway, South Carolina

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of Horry County Schools (the School District), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements, and have issued our report thereon dated November 30, 2017. Our report includes a reference to other auditors who audited the financial statements of discretely presented component units as described in our report on the School District's financial statements. This report does not include the results of other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by their auditors.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report on Compliance for Each Major Federal Program; Report on Internal Control Over Compliance

To the Board of Education Horry County Schools Conway, South Carolina

Report on Compliance for Each Major Federal Program

We have audited Horry County Schools' (the School District) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the School District's major federal programs for the year ended June 30, 2017. The School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

The School District's basic financial statements include the operations of discretely presented component units, which received, in total, \$805,551 in federal awards which are not included in the School District's schedule of expenditures of federal awards for the year ended June 30, 2017. Our audit, described below, did not include the operations of the discretely presented component units, as these discretely presented component units engaged other auditors to perform an audit in accordance with Uniform Guidance.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200 Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the School District's compliance.

Opinion on Each Major Federal Program

In our opinion, the School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

Report on Internal Control Over Compliance

Management of the School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
